HALIFAX, Thursday, March 3.

The royal mail steamship *Canada*, Capt. MOODIE, left Liverpool at 9 o'clock on the morning of the 20th ult., and Queenstown on the 21st ult., and arrived at Halifax at 4 o'clock this morning. She has thirty passengers for Halifax and forty six for Boston.

The steamship *Australasian* arrived at Queenstown on the 19th ult.

The *Canada* had her machinery slightly disabled when two days out from port, and was under half speed the rest of the voyage. She leaves to-night for Boston, where she will be due on Saturday.

She reports, on the 20th exchanged signals with the *Australasian* going into Liverpool; also, with ship *Johanna Kepler*. On the 22d, lat. 51°, lon. 12°, signaled ship *Universe*, bound east.

WILLIAM MUIR, formerly British Consul at New-Orleans, died in England.

The rebel privateer *Georgia* quietly slipped away from Cherbourg Roads at midnight on the 15th, and stood out to sea.

The following American vessels arrived in the Roads about the time of the *Georgia's* departure: The *Winona*, *Mary O'Brien* and *Charles Davenport*, all from Callao, bound to Havre.

The case of the *Pampero* had been further debated in the Exchequer Court, Edinburgh. The defendants' complained that the informations were bad in law, and objected to the case going to trial. An adjournment was granted for the reply of the Crown counsel.

There was a vague rumor in London on the 19th that France contemplated a speedy recognition of the Confederates, under which the rebel loan advanced to 57@59.

The *Army & Navy Gazette* thinks the present Spring campaign in America will bring forth results decisive of the contest and of the fate of the LINCOLN Cabinet.

GREAT BRITAIN.

In the House of Lords on the 18th, the Marquis CLANRICARDE gave notice that on the 23d he would call attention to the recruiting by Federal agents in Ireland, and ask what steps the Government intended to take respecting it.

In the House of Commons Mr. BAILEY asked the Attorney-General whether he was of the opinion, when an English vessel was captured in a neutral harbor by an American cruiser, it was the duty of the Government to wait for a decision in a Prize Court before demanding reparation. He also asked whether the capture of the British vessel *Science* at Matamoras was not a violation of international law and a direct act of hostility to England.

The Attorney-General said if an English merchant vessel was captured by an American vessel in a neutral harbor, it would not be the duty of the Government to wait for the action of a Prize Court before demanding satisfaction. But with regard to the case of the *Science* it was controverted whether she was captured in Mexican waters or not. In the instructions given to American cruisers, nothing could be more distinct and clear, that no neutral vessels should be taken in Mexican waters. If, therefore, American cruisers captured British vessels in Mexican waters they would do so in direct contravention of their instructions, and in that case he had no doubt the United States would make reparation.

Mr. LAYARD said the British Government had accepted the proffered mediation of Portugal in the Brazilian question. He did not know whether the Brazilian Government had accepted it.

In the House of Commons, on the 19th, Mr. LAYARD said the Government had no official information of the capture of the British ship *Martaban* by the *Alabama*. He also said no communication had been addressed to the Government with a view to the recognition of the Empire of Mexico. The British Government had hitherto declined to express an opinion upon the subject.

In reply to Mr. HALIBURTON as to the capture of a rebel ship by a Federal vessel in the harbor of Pauxbar, Nova Scotia, Mr. LAYARD said Lord LYONS had been instructed to demand redress; but before those instructions were received, Secretary SEWARD had expressed regret and offered reparation.

In reply to some inquiries on the Danish question, Lord PALMERSTON spoke strongly as to the Austro-Prussian invasion of Schleswig, and was loudly cheered. He declined to say what the Government would do if the Germans entered Jutland.

THE WAR IN DENMARK.

A Copenhagen telegram says:

The German troops have entered Jutland in considerable force.

The Germans attacked the Danish outposts along the whole line on the 18th; but after several hours' engagement, they were repulsed, though they occupied all their former positions.

A Danish iron-clad monitor attempted to destroy the bridge thrown over to Egernsund, but was unsuccessful.

It is asserted that the Danes have withdrawn behind their intrenchments at Duppel.

A Danish frigate in the English Channel had overhauled numerous vessels, including an American bark.

War risks were being paid on belligerents' vessels in England.

The Frankfort Diet had resolved that an embargo should be placed on Danish shipping in all German ports, in consequence of the Danes having laid an embargo on all German shipping.

The Austro-Prussian note to the minor German States, declares that they do not recognize the necessity of a Federal reserve being stationed in Holstein. Should such a want arise the great Powers would place at the disposal of the Diet a sufficient reserve for executive purposes. It is expected that this note will aggravate the prevailing indignation of the minor States at the high-handed proceedings of Austria and Prussia.

ITALY.

The Paris correspondent of the *Times* says rumors not unlike those afloat preceding the Italian war are in circulation. Now, as then, it is said, agents are in France, buying arms and munitions of war of all descriptions on account of the Italian Government, and naval stores are purchased by them with the permission of the French Government. It is consequently conjectured that an attack on some part of the Adriatic is contemplated by the Italian Government.

POLAND.

The insurgents attacked the Russian garrison at Konskei and drove the Russians out of the town The Russians were then attacked by another party of insurgents and defeated with heavy loss.

Almost all the guards on the Warsaw and Vienna Railway had been arrested.

Prince SAPIEHA had escaped from prison at Limberg.

THE CHARLESTON FLEET.

Arrival of Admiral Dahlgren and Staff at Washington—Commodore Rowan Temporarily in Command at Charleston—All Quiet.

WASHINGTON, Thursday, March 3.

The *Star* of this afternoon says: "Last evening the steamer *Harvest Moon*, Acting Volunteer Lieut. J. D. WARREN, commanding, arrived at the Navy-yard from Charleston Bar, having left there on Saturday night last, bringing up Admiral J. A. DAHLGREN and Staff of the Atlantic squadron.

When they left the bar everything was quiet; though there was some excitement in regard to rebel torpedoes. None have been seen, however, since the *Housatonic* was blown up; but as a precautionary measure fenders are put out around the different vessels nightly.

When the *Harvest Moon* arrived in the Potomac yesterday there was no pilot at hand, and after several ineffectual efforts were made to secure one, Admiral DAHLGREN volunteered for the duty, took his position in the pilot-house, and brought the vessel safely up to the yard, where she arrived at about five o'clock last evening.

Commander ROWAN was left in temporary command of the fleet."

Preparations for Active Military Movements.

The steamship *Yazoo*, from New-Orleans on the 25th ultimo, arrived last night, bringing us our special correspondence and files of New-Orleans papers, by which we have details of the signal victory of the Free State party in the late election.

Active preparations were being made in all departments for operations, but to what quarter they are to be directed has not transpired. Some point on the Mississippi, or up the Red or Owachita Rivers, would soon be the scene of action. All the steamers that came down were detained, and a very large number were collected at New-Orleans. Several, which left here for St. Louis, on reaching Memphis were compelled to discharge their cargoes and return.

The army in Texas is inactive.

Affairs in Western Louisiana remain as at last accounts. Across Lake Ponchartrain affairs look more brisk.

The New-Orleans *Era*, of the 23d ult., contains the following items:

The Galveston-Houston *News* contains a rebel Government advertisement announcing the gunboats *Harriet Lane* and *Clifton* and bark *Cavalla* to be sold at auction on the 10th of February.

The same paper declines taking subscriptions for a longer period than six months, owing to the uncertainty of the currency and affairs generally.

Dates from Sabine Pass state that the rebel. Col. GRIFFIN, with 800 men, holds that place; but his men are unpaid and discontented and prone to desertion.

The gunboat *Clifton* has been dismantled of her guns, laden with 700 bales of cotton, and would shortly attempt to run the blockade.

A captain of a blockade-running schooner lately landed at Point Isabel, with $19,000 in gold in his possession, and was captured by our forces. He did not know that the rebels had been driven from the place.

The embargo on the export of corn to Metamoras has been removed.

The steamer *George Cromwell* arrived at New-Orleans on the 22d ult.

We are again indebted to Purser COOK, of the steamship *Yazoo*, for favors.

FROM OUR SPECIAL CORRESPONDENT.

NEW-ORLEANS, Wednesday, Feb. 24, 1864.

The 22d day of February was celebrated in this city by a variety of events that certainly mark an era in its history, and will be always remembered by those who passed through the varied excitements with unusual pleasure. The day was one of the finest that ever dawned upon the earth, and after the unseasonable cold, was therefore doubly enjoyed. At an early hour the people were astir to witness the parade and hear the grand concert to come off at the head of Canal-street. Long before the hour set for them in the programme, the wide street was densely thronged from Camp to the levee. The Custom-house and every other available place were literally covered over with spectators, including large numbers of ladies. Just above the Custom-house was erected a large stand, on which were stationed the members of several of our best military bands, formed for the moment in an immense orchestra of instrumental music. At the intersection of Tchapitoulas-street with Canal was a park of forty pieces of artillery loaded with cartridges, and so arranged by a galvanic battery that they could be fired as the base notes of the rolling music. The first piece was appropriately "Hail Columbia," and we never heard it given with more effect. As one note after another of that swelling anthem struck the ears of the enthusiastic listeners, the crowd gradually assumed a perfect silence. The ladies convulsively kept tune with their hands, the gentlemen's eyes glistened, and the bronzed veterans present of the Department of the Gulf wore a more fierce and martial aspect. Amid this profound moment of interest, as the speaking harmony swelled and reverberated even across the glorious Mississippi, the climax was reached by the sudden belching forth of the artillery, its roar mingling at last in one grand combination, made up of music, the artillery and the cheers of the enthusiastic crowd. A number of pieces followed, the most noticeable of which was the "Storm Gallop," in which the soldiers of Col. DUDLEY's Cavalry Brigade gave great effect by their hearty cheering, the charge or battle cry of the men. The musical entertainment concluded by a finale furioso, in which our national airs mingled with those of other nations, the whole ending with the rapid discharge of the artillery. This novel concert, and most appropriate celebration of WASHINGTON's birthday, consumed nearly two hours. There were present on the stand Maj.-Gen. BANKS, his staff, and most of the distinguished officers of the department, as well as a large number of our most influential citizens.

Meantime the city was made lively by another, and, for practical purposes, a more important proceeding. The loyal voters of Louisiana were at the polls using their prerogative for the selection of a civil Governor, the first to be elected in a rebel State. It was due to Louisiana to thus lead off in the great work of restoration. Forced by political traitors against the wishes of her people out of the Union, under the protecting ægis of the Federal power, she hastens back under the folds of the Stars and Stripes, setting an example soon to be followed by Tennessee, then Arkansas, and then, we trust, by all the remainder of the States now held by a military despotism as part of the Confederate States. The moral of this election in a thousand ways will tell for good at home and abroad. It will satisfy foreign statesmen that the hearts of the people were never prepared for rebellion. It will close the mouths of the slanderers of the London *Times* and kindred sheets, in their constant assertions that the people of the South do not wish to return to the Union. It has settled the matter that the people of at least one, and that the extremest Southern State except one, will accept a Free State Constitution as a basis of their future existence in the Union; for this feature, by accidental circumstances, has been most prominently brought before the voters, and has been decided upon with a pronounced manner that cannot be misunderstood. The able leader which appeared in your paper some weeks ago, upon the announcement that a negro delegation had been admitted to the floor of a political convention in New-Orleans, in which you condemned the whole movement as offensive against society and good government, has been responded to by this election; and in addition, the Conservative, or, if you please, the Copperhead ticket, also had its fair presentation, also to be signally condemned—the voters wisely steering between the two extremes, accepting a Free-State Constitution as a basis of action, untainted by ultra Abolitionism or incipient sympathy with the spirit of the rebellion.

There were three candidates before the people—Mr. FELLOWS, the Conservative; Mr. FLANDERS, the Ultra, and Mr. HAHN, the consistent friend of a free Constitution. By an examination of the election returns, the most casual reader will perceive the exact state of public sentiment here, and will, if truly patriotic, rejoice at the healthy tone of public sentiment, for the election of Mr. HAHN is a measure of a practical character, and of great future consequences for good in its example to the rebel States, as well as at the North, that can hardly be too much appreciated; it shows that returning reason of the people here accepts the fact that the State of Louisiana would be better off with a free Constitution, and relieved of the degrading influences of Slavery, and that while they have no sympathy with radical measures looking in the future to negro equality, they also emphatically condemn any party that looks to the restoration of half-way measures in favor of Slavery, that would in the most easy manner be made a stepping stone in due time for the restoration of Slavery and the return to the "black code." All honor to Louisiana; she has again assumed, by her regenerated position, her place as the real keystone of the arch of the cotton-growing States.

In this connection, I should be derelict of duty if I did not record how much the country is indebted to Maj.-Gen. BANKS for the manner he has treated the entire preliminaries of the campaign. His proclamation, ordering the election, was, and has been, the keynote of all subsequent action, and all "orders" he has issued since have tended to elucidate difficulties and call forth the most harmonious feelings. He has with singular success kept aloof from all questions that were calculated to complicate or embarrass the real objects of the election, viz.: the restoration of the State into the hands of those who stood pledged to Mr. LINCOLN's proclamations, and he has done this, not by any exertion of his supreme military authority, but by simply setting the example of right, and then trusting to the good sense of the people, left them to follow, and they have justified his faith, and he can look at the result as a proud triumph of intellect and patriotism over fanaticism on one side and a destructive conservatism on the other. In no trying position of Gen. BANKS' public life, not even in his contest for Speaker, did his eminent civil qualities as a statesman and executive show more brilliantly.

In analysing the imperfect election returns, we learn the gratifying fact that *twice as many votes* for Governar were cast as were necessary to meet the requirements of Mr. LINCOLN's Proclamation—the number required being 5,250, the number cast will reach near 11,000. In the Congressional election within the Parish of Orleans a year ago, which resulted in the return of Messrs. HAHN and FLANDERS, there were cast 5,280 votes, at this present election 5,811 votes were cast within the same district, showing a gain of 529 votes in twelve months; the enormous gains have been made in the country which has been opened up for the holding of an election. Louisiana, in 1860, cast a little over 30,000 votes, and by examining the general returns it will be perceived that wherever an election was held the aggregate number of votes cast was equal to the election of 1860.

The polls closed at 4 o'clock, and ere the hour of seven arrived the people were crazy with the returns that announced the glorious victory which had been achieved, as three precious hours of the eventful day still remained to prepare for the grand masquerade which Mrs. Gov. BANKS offered to the *élite* of our population as a proper conclusion of the glorious festivities of the day—a *bal masque* at the Opera House. The building for the occasion was most profusely decorated with flags, and further ornamented with a magnificent gas jet, forming the name of WASHINGTON. Two splendid bands, one in the second gallery, and one in the rear of the stage, discoursed the music, alternately relieving each other. At 10 o'clock, the streets were alive with carriages, the occupants in the varied and gay dresses glistening most picturesquely in the bright moonlight, while on the pavements long processions might be seen of ladies and gentlemen masked, wending their way to the Opera House. New-Orleans looked for the time like an Italian city, rather than like an American city. All was joyous, the ladies delighted with the novelty of the affair. the gentlemen additionally exultant from the now officially announced Free State victory. Entering the Opera House, the guests, ascending the steps, entered the building, and finally reached the first tier of boxes, where the centre of the front had been removed, and a platform erected reaching over the parquette. From this platform a winding stairs descended to the floor of the ball-room. On the stage stood Mrs. Gen. BANKS, the hostess of the evening, dressed as a lady of the era of LOUIS XIII., supported on the right by a lady in the dress familar to the dames of uor first revolutionary period, and here supported by Gen. BANKS, she received her guests, with a dignity and ease that charmed the immense throng present. The entire affair was a most brilliant success. The boxes were crowded with elegantly dressed spectators, the floor was overflowing with the maskers. I was glad to see in the throng many representatives of our most aristocratic old families. They have withstood all inducements to be friendly and accept the Federal rule, until the fascinations of social and elegant entertainments, under the patronage of Mrs. BANKS, brought them from their seclusion. In conversation with a gentleman present, prominent in society here for the last twenty-five years, he was forced to admit that the Crescent City, in her palmiest days, never gave so brilliant a ball, or one in every particular so rich in costume, and distinguished for its guests, as this closing *fête* of the celebration of WASHINGTON's Birthday of New-Orleans. —Or within a fraction of three-fifths of the entire vote. The other candidates on the Free State ticket have been elected by about the same majority as that of Mr. HAHN.

The returns yet to come in will probably swell the aggregate vote to something over 10,000, but the only effect they will be likely to have upon the result will be to increase Mr. HAHN's majority.

FROM THE SOUTHWEST.

A Company of the First Mississippi Colored Infantry Surprised.

All of Them Killed or Mortally Wounded.

Nothing Definite from General Sherman.

CAIRO, Ill., Wednesday, March 2.

The Clerk of the steamer *Pringle* makes the following statement;

"While the steamer *Pringle* was on a foraging expedition to JOHNSON's plantation at Tecumseh Landing, five miles above Grand Lake, Mississippi, on the 14th of February, a band of sixty well mounted and well armed guerrillas, dressed in Federal uniforms, surprised a company of the First Mississippi, (Federal) Colored Infantry, who were standing guard about a mile and a half from the main body of the foraging party, capturing and disarming them, and before assistance could be rendered, all were killed or mortally wounded, except two, who feigned death, Lieut. COX and Sergt, SPENCER.

Some of the negroes were pinned to the ground with bayonets; others had their brains knocked out, and others were shot through the head while on their knees begging for quarter.

The guerrillas escaped without losing a man.

After the dead had been buried, the mansion around which a guard had been posted, and no one allowed to enter previous to the slaughter of our troops, was fired by the guerrillas and its furniture consumed.

Four thousand bushels of corn were taken from a crib containing fifteen thousand bushels, when the foraging party returned to Vicksburgh.

Four hundred guerrillas, of which the murderers were a part, are reported by citizens to be encamped a short distance back in the country from Tecumseh's Landing.

FROM CAIRO.

CAIRO, Thursday, March 3.

A rumor comes from Vicksburgh by the steamer *Mississippi*, from New-Orleans, that Gen. SHERMAN, having returned from Meridian, had gone in the direction, and was within 40 miles of, Mobile. No dates are given, and the report cannot be traced to a reliable source.

THE ALABAMA.

Her Depredations in the East.

The following letter, received by one of our first business houses from its correspondents at Penang, gives some highly interesting particulars of the operations of the *Alabama*:

PENANG, Thursday, Jan. 7, 1864.

GENTLEMEN: The overland mail from Europe, now ten days overdue, still keeps out, and, in the absence of intelligence from that quarter, considerable excitement has been occasioned here by the further depredations of the rover *Alabama* in this neighborhood, an account of which we have thought might prove of interest.

The Captains and part of the crews of the American ships *Sonora*, of Newburyport, 707 tons, and the *Highlander*, of Boston, 1,049 tons, arrived here on the 30th ult., in boats, (after being assisted on their way by several vessels,) and report that they left Singapore on the 17th idem, on the way to Akyab in ballast, to fulfill rice charters for Europe, under which they were engaged; and that, on the morning of the 26th, whilst weighing anchor about ten miles east of the north sand lightship, in the Straits of Malacca, (about lat. 3° north, lon. 101° east,) they were overhauled by the steamer *Alabama*, whose officers reported that they were in search of both ships, having been informed of their movements, and having, in fact, been watching them on the previous day. The crews were removed to the *Alabama*, by whose commander the chronometers, all charts, nautical instruments, &c., were confiscated, and the ships were then fired and destroyed. The Captains of the two vessels only were allowed to come on board. The Captain of the *Highlander* was allowed water; the other boats, three in number, were turned adrift without food or water, and have not since been heard of. The Captains having subsequently united in the boat which arrived here, brought with them the first and second officers of the *Highlander* and six of her crew, and the first officer of the *Sonora*. The third officer of the *Highlander* was drowned whilst hauling up the boat to a French bark, bound for Madras, which picked up the company and brought them some distance on the way. All the above, with the exception of the Captain of the *Highlander*, were sent on to Calcutta, on the 31st ult., by the United States Consular Agent here, per steamer *Cheduba*. They were informed on board the *Alabama* that that vessel had destroyed on the day previous (25th ult.) a bark lately under American colors and called the *Texan Star*, but at the time of capture sailing under the British flag, and having British register and hailing from Maulmain, as the *Mastaban*. We are informed by her agents here that the bark was laden at Maulmain with rice for Hong Kong by Mr. ABRAHAM COHEN, and that the cargo was British property. It was reported on board the *Alabama* that the Captain of the *Mastaban* had unfortunately kept a copy of his letters to his owners advising them that he had changed the flag to avoid risk of capture, upon sight of which document the bark was at once fired.

The *Alabama*, when last seen at noon of the 26th ult., was going off at full speed in the direction of Ackeen Head. Her Captain stated that he expected that his acts in this quarter would draw the *Wyoming* back from Java, where he supposed her then to be, and that he would then be enabled to pass around Sumatra and have a second cruise in the Straits of Sunda. The *Alabama*, having recently repaired and coaled in Singapore, was prepared for a three or four weeks' cruise.

The Captain of the *Sonora* saw a Singapore pilot-boat lashed to the *Alabama's* davit, and recognized a "dubash" on board whom he had frequently seen in Singapore; this prow was seen standing back in the direction of Singapore on the following day.

The *Sonora* was owned by Messrs. J. M. & WM. CUSHING, of Newburyport, and the *Highlander* was owned by Messrs. E. D. PETERS & Co., of Boston. The Captain of the latter owned a considerable interest, which was not insured.

Our Produce markets are quiet at the moment; there is no demand for America, and American ships have been brought into disfavor by the state of affairs above described, and local offices refuse to take any risks under the flag.

ARMY OF THE POTOMAC

The Great Cavalry Raids in Virginia.

Kilpatrick at Spottsylvania Court-House on Sunday Morning.

He is Reported at White House on Tuesday.

A Junction with General Butler's Forces Probable.

The Prospects Encouraging at Latest Advices.

Special Dispatch to the New-York Times.

WASHINGTON, Thursday, March 3.

Gen. KILPATRICK crossed the Rapidan at Ely's Ford, on Sunday morning at 4 o'clock. He surprised and captured the rebel pickets, a Captain, Lieutenant and fifteen men on the south bank of the stream, and moved in the direction of Spottsylvania Court-house, stopping for a half hour at Chancellorsville. The last official intelligence from him was a dispatch dated 11 o'clock on Sunday morning, from the former place. The dispatch was substantially as follows:

"Twenty miles nearer Richmond. Am all right. Will double my bet of five thousand dollars that I enter Richmond."

His command is composed of picked men, who are supplied with every engine of destruction that can possibly be used in a cavalry raid.

I have good authority for stating that the War Department has information that LONGSTREET's forces have arrived at Richmond.

KILPATRICK's Cavalry is operating in three columns, devastating the country as they advance. His force is six thousand strong, and has from twenty-four to thirty-six hours' start of the rebel cavalry. Even if he is unsuccessful in capturing Richmond he will seriously damage the rebels.

HEADQUARTERS ARMY OF THE POTOMAC,
Thursday, March 3.

All the troops who accompanied Gen. CUSTER have returned.

Reports prevailed in camp yesterday that KILPATRICK was within twelve miles of Richmond, and that he had destroyed the Central Railroad west of Hanover Junction, as well as the Fredericksburgh road.

REPORTS FROM WASHINGTON.

WASHINGTON, Thursday, March 3.

The *Star* of this afternoon says:

"We have late interesting information from the front, to the effect that Gen. KILPATRICK, with a force of picked cavalry men, has arrived at the White House and formed a junction with a force sent up by Gen. BUTLER from the Peninsula.

This statement is based upon the fact that two of Gen. KILPATRICK's scouts have come back and made the above report, and the report is believed in the Army of the Potomac.

Gen. KILPATRICK is thus within a few miles of Richmond, and, as Gen. BUTLER is coöperating with him, we may expect to hear of startling news from that quarter in a day or two.

On his route to the White House, Gen. KILPATRICK, having orders so to do, avoided meeting any large force of rebels.

After he had left the front, another party of eight hundred picked cavalry was sent out to communicate with him. They, however, met a rebel force, and, as their orders were not to fight, if a battle could be avoided, they moved toward the east, and the Commander, not striking the direct road, came upon a party of rebels near Fredericksburgh, captured them, burnt their camp, and destroyed a quantity of valuable army stores, and then passed on their way to join KILPATRICK.

A letter from the Army of the Potomac, received to-night, says a Captain, Lieutenant, and ten men, deserters from the rebels, came into our lines yesterday. They state that they have been receiving full rations since the 1st of February, including coffee and sugar.

A member of the Second Virginia Cavalry, asserted, among other things, that their pay was $24 per month, each man furnishing his own horse, and that they had received no money for some time past, as the authorities were waiting for the new currency, which was being prepared.

Some of the prisoners captured by Gen. CUSTER affect great confidence in their cause, and that everything looks favorable for them, and that they are bound to secure their independence.

Among the spoils brought in by Gen. CUSTER, was a rebel mail, captured at Stannardsville, consisting principally of love letters, and others of a business character. At that place he found a large quantity of bags marked "Q. M. D. C. S., Tax in kind," which were intended to receive the contributions of citizens of the vicinity toward supplying the rebel army, all of which were destroyed.

The weather yesterday and to-day was much more favorable, and, if it continues as good a day or two, will render the roads as passable as they were before the late storm.

A circular has been issued by Provost-Marshal PATRICK, requiring all sutlers, photographers, keepers of eating houses, embalmers, bakers, stationery and newspaper dealers, and all other persons authorized to sell goods of any description within the lines of the Army of the Potomac, within ten days from the publication of this order, to present the Provost-Marshal-General evidence of having paid the Internal Revenue tax required by law. Any person doing business in the army who shall fail to comply with this order, will not only forfeit his right to longer continue with the army, but his goods will be seized and sold, and the proceeds thereof paid into the United States Treasury, to satisfy the just demands of Government.

The Harlem and Broadway Railroad.

ALBANY, Thursday, March 3.

The Senate Railroad Committee has postponed the hearing on the Harlem and Broadway Railroad Bill until Wednesday, on motion of the opponents of the bill.

Gen. Fremont for President.

ST. LOUIS, Thursday, March 3.

Two radical German papers of this city—the *Westliche Post* and *Neue Zeit*—have hoisted the name of Gen. FREMONT as People's candidate for the Presidency.

From California.

SAN FRANCISCO, Thursday, March 3.

Sailed steamship *Golden City*, for Panama, with 140 passengers, $740,000 in treasure for England, $273,000 for New-York, and $50,000 for Acapulco.

LOCAL INTELLIGENCE.

The Comptroller's Annual County Report.

The report of County finances for 1863, was submitted by the Comptroller to the Supervisors, Tuesday. We present the annexed summary of it for the general reader, but the document entire is of interest to our tax-payers, and copies may soon be obtained on calling at the Comptroller's office:

The various appropriations made by the Board of Supervisors during the year, amounted to $5,570,351 66 (exclusive of special loans,) or $714,769 32 more than was appropriated in 1862. The means to meet the amount of the appropriations were derived as follows:

Included in the tax levy	$5,494,576 44
Supplied from and charged to general fund	64,750 00
Amount raised in 1860 to pay claims against the Commissioners of Records, in excess of the sum appropriated therefor that far, and credited to "suspense account"	11 025 22
Total	$5,570,351 66

Of this amount $5,385,562 26 was expended to Dec. 31, leaving a balance of $282,736 13 on hand at that date.

The expensive method of business involved to the County (to say nothing of the City) by collecting the taxes toward the close, instead of early in the year, is strikingly exhibited in the statement that the loans on revenue bonds during the year amounted to $2,417,700, all borrowed in the months of February, March, April and August, at 5 per cent, and paid in October, November and December. Of the amount $1,237,700, or a fraction over one-half of the whole, was loaned in April. A very pleasant part in connection with this unpleasant subject is, that the time of payment was shortened beyond precedent, thanks to Comptroller BRENNAN's management, and all the loans were paid within the year, thus effecting a saving of several thousand dollars over the previous practice in reference to such loans.

The whole $1,000,000 of new Court-house Stock has been issued—$900,000 in 1862, and $300,000 in 1863, and in awarding it $19,750 were realized from premium bids for it.

Of the riot damages indemnity fund bonds $861,300 were issued during the year, in which premiums were realized, forming a very small portion, and amounted to $23. The principal of these bonds is payable on or before Aug. 1, 1864.

The amount of taxes remaining uncollected Dec. 31, 1862, was $3,392,323 56. The total amount of the tax levy of 1863, (inclusive of both city and county taxes,) was $12,093,773 90. Of this amount on Dec. 31, there remained uncollected $4,672,666 62. The interest received on payments to that date amounted to $43,857 05.

The discounts on payments allowed during the month of October amounted to $32,136 20, of which $16,855 14 belonged to the City and $15,281 06 to the County.

The County debt is stated at $4,271,400. This is exclusive of the City debt, which, at the close of 1863, was $29,898,942. Of the County debt, the following was created in 1863:

New Court-house Stock	$300,000
Substitute and Relief Fund Bonds	946,700
Soldiers' Substitute Bounty Fund Bonds	1,423,400
Riot Damages' Indemnity Fund Bonds	861,300
Total	$3,531,400

The interest upon the increasing debt, in addition to increased City debt for Central Park, Family Aid Fund, &c., and meeting a portion of the principal from time to time, accounts to a considerable degree for our increased budget of taxes each year.

The Comptroller closes with a reference to the rapid increase of the public debt, and a reminder of the necessity of economy.

Naval Movements.

OUR NEW COMMANDER OF MARINES.

Maj. REYNOLDS assumed command of the marines at the New-York station, and Maj. GARLAND left for Portsmouth and Hampshire to command the garrison of that place. Maj. REYNOLDS has been in the service forty years, and is a native of the State of New-Jersey. Maj. GARLAND is a Virginian, and has been nearly as long an officer. The officers attached to the station, to the receiving ship, and to the different men-of-war in commission in harbor, paid their respects to the new incumbent during the afternoon.

OUR PACIFIC SQUADRON.

Touching the rumors that the pirate *Alabama* is about to visit the Pacific Ocean, it may not be amiss to give the strength of our Pacific squadron, which is as follows:

	Tons.	Guns.	Officers and Men.
St. Marys	958	22	300
Steam-sloop Lancaster	2,360	16	300
Steamer Narragansett	804	5	100
Steamer Saranac	1,446	9	250
Steamer Saginaw	453	3	100
Sailing-sloop Cyane	72	20	280
Total	3,993	75	1,330

These vessels all belong to the regular navy, and the *Saginaw* is said to be very fast. There is a rumor that other steamers are under orders for the Pacific.

ANOTHER TRIAL TRIP OF THE IRON-CLAD TECUMSEH.

This vessel made another trip down the bay yesterday, which was chiefly intended for the test of the new friction gun gear. It is deemed best not to publish the result of the experiment, until its merits shall be decisively tried. Admiral GREGORY, Commodore RODGERS and Chief-Engineer STIMERS were among the party on board.

The Pirate Steamer Chesapeake.

The revenue-cutter *Miami* was yesterday sent to St. Johns, to take on board the pirates of the *Chesapeake*, and bring them to this City. Deputy Marshal YOUNG was sent by Marshal MURRAY to proceed on board the cutter to St. Johns to receive the prisoners from the British authorities. The cutter will proceed from here to Halifax, and convoy the *Chesapeake* to this City.

The Late Thomas Tileston.

At the monthly meeting of the Chamber of Commerce, held yesterday afternoon, deep and feeling expressions of condolence for the deceased, and sympathy with his remaining relatives, were expressed. The President, A. A. Low, Esq., stated that it was customary with all public bodies to adjourn in respect to the memory of an esteemed departed member; and it was accordingly decided that this Board adjourn for a fortnight, and that suitable resolutions, expressing the feelings of the Board, be prepared. Mr. JONES, President of the Atlantic Mutual Insurance Company, read a statement he had prepared, giving a sketch of the life of Mr. TILESTON from the time he joined the Chamber in 1833, since which time he had been connected with the shipping and commercial interests of the City, President of the Phœnix Bank, and had held many offices of trust. Mr. JONES continued for some time, and spoke in high and eulogistic terms of Mr. TILESTON. The Secretary, Mr. JOHN A. STEVENS, after an appropriate speech, presented a suitable preamble and set of resolutions which were unanimously adopted. The funeral took place from the residence of the late Mr. TILESTON, corner Fifth-avenue and Fourteenth-street. The house was filled with numbers of our prominent citizens and the friends and relatives of the deceased. The remains were placed in a handsome rosewood coffin, beautifully ornamented, and on the silver plate of which was engraved:

THOMAS TILESTON,
Born August 13, 1796;
Died February 29, 1864.

On the coffin were placed wreaths of immortelles and a large and beautiful cross of camelias. Rev. Drs. OSGOOD and BELLOWS performed the funeral services. The body was then placed in a hearse, and conveyed to Greenwood Cemetery, the following gentlemen acting as pall-bearers:—W. F. Carey, Joseph Lawrence, A. A. Low, Daniel Lord, Capt. French, B. F. Wheelwright, Lewis Curtis, Moses H. Grinnell, E. E. Morgan, Wm. Van Schaick, Simon De Visser, Judge Betts.

The State Bounty to Recruits.

Capt. THEODORE B. BROWNSON, the Provost-Marshal of the Sixth Congressional District, has procured the necessary authority to pay the State bounty of $75 to all recruits passed at his headquarters, No. 185 Sixth-avenue. Capt. BROWNSON, since his appointment, has constantly labored to promote the interests of the district over which he presides, and also of the recruits mustered by him, and he has been largely instrumental in bringing to justice many of those who have been engaged in the swindling operations which were so common in the City. His course has been strictly impartial and independent in the discharge of his official duties, and he is fully entitled to receive the support and coöperation of all patriotic citizens.

The Draft.

The long-dreaded draft is not likely to take place in this City. From figures procured yesterday, it seems more than probable that the number of men needed will be furnished before the 10th inst.:

The original number of men to fill the quota was 15,979; the number of recruits enlisted to date, 6,371; number of veterans credited, to date, 4,026; number of men who, being drafted, served, furnished substitutes, or paid commutation, 3,059. Total, 13,456. Leaving number of men yet to be furnished, 2,523.

The recruiting officers seem satisfied that this number can be easily raised, and if they are, the quota will be filled, and a draft, of course, unnecessary.

Honors to and Departure of Gen. Leslie's Brigade.

The veteran regiments of this brigade, viz.: The Eighty-first, Ninety-sixth and Ninety-eighth Regiments, New-York State troops, Wednesday left their barracks at the Park, and escorted by the Eighth and Thirty-seventh Militia Regiments, were reviewed at the City Hall by the Mayor and Common Council; they then marched up Broadway, and at the Fifth-avenue Hotel were reviewed by Maj.-Gen. BURNSIDE; from there they marched to the arsenal, corner Thirty-fifth-street and Seventh-avenue, where a collation was prepared for them, and after partaking of it, they were escorted to the Hudson River Railroad depot, and took the cars for Albany. The Eighty-first Regiment was raised in Oswego and Oneida Counties, and is composed of a fine set of men. They were with Gen. MCCLELLAN all through the Peninsular campaign, and were afterward with Gen. FOSTER's Charleston expedition, at which time their Colonel (DE FORREST) was in command of the brigade and won honors for his and their bravery. Since that time they have been in North Carolina doing outpost duty in the Dismal Swamps, fifteen miles from any other troops, and where their pickets were nightly fired upon by the enemy. Their original colors were so torn and service-worn as to be useless, and were sent to the State Department at Albany, where they now are. A second set was presented them by the Messrs. INGERSOLL, of Oneida County.

The Ninety-sixth Regiment was organized at Plattsburgh, under command of Col. JAMES M. FAIRMAN; the rank and file were principally enlisted in the northeastern section of the State, through the exertions of the late Col. CHARLES O. GRAY, of Warrensburgh, Warren County; they were also through the Peninsular campaign, the greater portion of the time under command of Lieut.-Col. CHARLES O. GRAY. At the siege of Yorktown, at Williamsburgh, and in innumerable skirmishes along the line of the Chickahominy, under their gallant and favorite commander, the Ninety-sixth was distinguished for its dash, endurance and bravery. On the 29th of May, in one of the then common picket skirmishes, its Major, JOHN E. KELLY, was killed. At Fair Oaks it was one of the first regiments to engage the enemy, and the last to leave the field. At Suffolk, Lieut.-Col. GRAY was promoted to the colonelcy of the regiment, and in honor of the occasion, he presented to his command a beautiful stand of colors. When Gen. FOSTER organized his expedition to Goldsboro, the Ninety-sixth was with him, and at the battle of Kinston, the gallant Colonel, CHARLES O. GRAY, while leading a charge, was killed at the head of his regiment. The regiment built and finished the fort at Plymouth, N. C., which, in honor of their services, and in memory of their late Colonel, was, by order of the General Commanding the Department, called Fort Gray.

The Ninety-eighth Regiment were also with Gen. MCCLELLAN through the Peninsular campaign, and their decimated ranks show how well they performed their duty. They entered the field commanded by Col. DUTTON, a brave and excellent officer. He was taken with typhus fever at Fair Oaks, and died. He was succeeded by Col. DURKEE, who resigned while the regiment was at St. Helena Island. The command then devolved upon its present commander, Lieut.-Col. WEAD, who has fully proved himself a gallant officer, and who is dearly loved by his men. The regiment, after going through almost all the battles of the Army of the Potomac, were assigned to duty at Pungo Bridge, Va., and here they remained until they came on to New-York.

Metropolitan Fair Buildings.

The buildings being erected for the use of the Metropolitan Fair are rapidly approaching completion. Their location (the Palace Garden, between Fifth and Sixth avenues, and Fourteenth and Fifteenth streets) has been well selected, and is of easy access from all parts of the City, by stages and cars. The work is being done by the Fair Committee on Organization, of which Mr. C. E. DETMOLD is Chairman. The ground, according to the present plan, is over two hundred feet square. It will be divided into a grand building, 150 by 160 feet, in which all of the principal stalls will be located. An art gallery, 50 by 160 feet, which will probably contain on the day of exhibition one of the finest collections of paintings and statuary ever brought together in this country; a restaurant, 75 by 95 feet, to which will be attached a spacious kitchen; the machine, printing-press and carriage rooms, and a suitable place for cattle, will be included among the apartments devoted to special purposes.

There will also be several small rooms in the main building, which are to be occupied as committee rooms, storerooms, &c.

Almost every branch of industry will be represented. There is to be a Firemen's Department, departments for dry goods, drugs and perfumery, jewelry and fancy articles, boots and shoes—in short, for about everything, Sewing machines, milliners and dressmakers, and toys, and a tent for soldiers' garments. Donations to the Fair are coming in rapidly. The business of the different committees is of the most encouraging character.

Arrangements are about being made to have accommodations provided for States that desire to be represented separately. New-Jersey, New-Hampshire, Connecticut and Ohio have made applications for separate appartments. Similar accommodations will be afforded our churches, as many of them desire a separate representation. The contributions from Americans abroad are much larger than anticipated. Letters have been received from Rome, Paris and other European cities, expressing a warm sympathy for the movement and a desire to coöperate by sending such articles for the benefit of the Sanitary Commission as will be of easy transportation.

GENERAL CITY NEWS.

MUNICIPAL REFORM.—A most salutary reform is proposed in the mode of conducting City elections, by the Citizens' Association, a newly-organized body of influential citizens. It is that meetings of the people should be called in each ward, and a President and officers elected for a Ward Association. The President will then appoint from the several ward election districts one hundred persons as an Executive Committee, who will apportion themselves into District Committees. These latter will record all voters in their respective districts, visit them, and induce them, if possible, to become members of the association. Before the period of elections, each District Committee will appoint a member of the association toward a Ward Committee on Candidates, who will examine the claims, qualifications and antecedents of candidates, and finally present a reliable ticket for the suffrages of the ward. In this way, it is thought that nominations will be taken from the hands of corrupt primary electors, and men be elected to office in whom the public may have confidence. The general misgovernment of the City, and the monstrous increase of taxes, has led to this step. The experiment of reform is being pushed with vigor.

MEETING OF THE MILK-PRODUCERS.—Yesterday afternoon there was a regular meeting of the Union Milk-Producers Association held at the Westchester House, Mr. WALTER FICKETT presiding. The following officers were elected for the ensuing year: President, WALTER FICKETT, of Hyde Park; Secretary, JOHN P. FLAGLER, of New-Hamburgh; Treasurer, SAMUEL A. DOUGHTY, of New-Hamburgh. Mr. DICKINSON moved that the price of milk be fixed for the Winter at 5c., and for the Summer months at 4c. Dr. GILL, of Poughkeepsie, offered a resolution to the effect that the freight be included in the price. Mr. DICKINSON concurred with Dr. GILL in making the resolution read 5 and 6 cents, based upon one cent freight. Mr. T. W. JAYCOX, of New-Hamburgh, moved as an amendment that the price be raised only for the Summer months, and the price for the Winter be taken up next Fall; and moved further that the price for the Summer be fixed at three and a half cents per quart. Mr. DICKINSON withdrawing his motion, the vote was taken on fixing the price at three and a half cents per quart for the five months ending Oct. 1, which was carried. The meeting then adjourned.

PRESENTATION TO ALDERMAN FARLEY.—On Monday evening a number of the friends of Alderman FARLEY met for the purpose of presenting him and his estimable lady with tokens of their friendship and esteem. To Alderman FARLEY they presented a beautiful silver pitcher, elegantly engraved, and bearing the inscription: "Presented to Alderman FARLEY by his friends;" to his lady a very elegant and tasty cluster diamond ring. The presentation was made at the Alderman's house, by Dr. WILLIAMSON, in a neat and well-adapted speech. The Alderman happily responded, thanking the many friends around him, and also the many who were unavoidably absent, but participated in the gifts, and welcoming those present in a truly hospitable manner. He then invited them to partake with him of an excellent supper, after which speeches were made, songs sung, and general sociability enjoyed until a late hour. Mrs. FARLEY was, unfortunately, quite ill and confined to her room, to the great disappointment of those present.

THE MERCANTILE LIBRARY.—The intention of the managers of the Mercantile Library Association to enlarge the library and reading-room, has been announced. A branch of the library was opened on Tuesday, at the corner of Broadway and Twenty-six streets, and all the opportunities for intellectual improvement now afforded at the main building, will be available to members at the new location. The movement indicates the prosperity of the association, and keeps pace with the progress of our City. When a few years since the library was removed from Beekman-street to Astor-place, the change was deemed hazardous, not only to its prosperity, but even to its existence. In its forty-third year, however, the association is not only vigorous and healthy, but continues to extend the scope of its usefulness. The library has now seventy thousand volumes.

MORE PRIZE-MONEY DISTRIBUTED.—The United States District-Attorney, on Tuesday, received from Judge NELSON, at Washington, the final decree of distribution of the net proceeds of the steamer *Ella Warley* and cargo, amounting to $83,733 57. The *Ella Warley* was captured off the Bahama Islands in April, 1862, by the United States steamer *Santiago de Cuba*, and brought to this port for adjudication. She had on board a valuable cargo of arms and ammunition intended for the Confederate Government. The arms were taken for the use of the United States Government on appraisal, and the vessel and balance of her cargo sold by the Marshal. The vessel was afterward placed upon the New-Orleans route, and on one of her trips was run into by the *North Star*, and sunk near the Narrows. The *Santiago de Cuba* alone shares in the prize.

THE MATTER OF THE SCHOOLS.—There is in many quarters a growing discontent with the manner in which our Public Schools are being conducted. It is safe to say, however, that not half of the complaints made are justified, and that many of the grievances are exaggerated. But the fact that a Principal of one of our Public Schools was recently arrested and locked up over night for being drunk and disorderly and taken to the Police Court in the morning, and that he has been neither reprimanded, suspended or discharged, but still presides over his school, over the minds and morals of the scholars, does not reflect well upon the school officers, who are, or ought to be, responsible for him. The facts of his condition and arrest can be ascertained at the Seventh Precinct Station-house. Such matters the public neither will or should tolerate.

TWENTY THOUSAND DOLLARS LOST IN A GAMBLING SHOP.—A Spanish gentleman, named RAFAEL ORTEGA, residing in Westchester County, appeared before Justice HOGAN, at the Tombs, and made complaint against three men, known as GEORGE HILL, GEORGE ANDREWS and C. SHAFFER, whom he charges with keeping a gambling house, on the second floor of premises No. 233 Broadway, where money is lost and won at the game of "faro." Complainant further testified that between the first day of February and the last of December, 1863, he lost the sum of $20,000, and upwards in those premises at the game of "faro." Capt. JOURDAN, of the Sixth Precinct, yesterday afternoon arrested SHAFFER and ANDREWS, but HILL is still at large. The examination will take place at the Tombs sometime next week.

CROSS-TOWN RAILROADS AND CITY'S INTEREST.—Attention is called to an advertisement, the object of which is to arouse property owners to an attempted outrage upon their rights and their possession by monopolists of privileges in the assignment or *sale* of which they have, or ought to have, something to say. The property owners on 42d, 34th, 30th, 27th, 23d, 9th and 10th streets, Lexington-avenue, on Duane and on Chambers street, and other streets named in the advertisement, are especially interested. They should take prompt and united action in order to prevent the consummation desired by speculators.

THE LATE STABBING IN LUDLOW-STREET.—Coroner NAUMANN yesterday held an ante-mortem examination at No. 38 First-avenue, in the case of WM. KUMPF, the German who was recently stabbed with a chisel in the hands of ADAM SCHOEFER. The occurrence took place in the manufactory No. 136 Ludlow-street, during which KUMPF was stabbed in the breast by his adversary, inflicting wounds so serious that he is not expected to recover. The affair has already been fully reported in the TIMES.

FREEDMAN'S RELIEF ASSOCIATION.—The National Freedman's Relief Association have sent to Port Royal, S. C., by the steamer *Fulton*, which sailed yesterday, Mrs. C. M. HAMMOND and C. A. DUNN, as teachers to the freed people.

LAW REPORTS.

The Notorious Hardenbrook Divorce Case Again in Court—The Plaintiff has Become Mrs. Harris, but Still Wishes to See the Children of the First Marriage.

SUPREME COURT—CHAMBERS.

Before Justice Barnard.

Rosalie A. Hardenbrook vs. Wm. A. Hardenbrook.—This is a veteran case returned again to the courts for the settlement of disputes, arising even after both parties have married a second time. The present and the former husband of the lady were both in court.

This was a motion to modify a decree in the case touching the custody of the children of the parties. The two children were awarded to the husband, with the condition annexed to the decree that the plaintiff should have the privilege of seeing them once a week upon giving one day's notice to defendant that she wished to see them. The following is the substance of plaintiff's affidavit used on this motion.

Rosalie A. Harris, formerly Rosalie A. Hardenbrook, being sworn, says that she obtained a divorce from the defendant, and that he has since remained at Greenwich, Conn.; that the defendant has removed to this City, bringing the children with him; that recently she has been living at Mrs. Gleason's No. 1 Irving-place, and that while there the children were allowed to visit her; but that lately they have not been permitted to come and see her; that she visited them at the public school which they attended, but that the defendant wrote her a note forbidding her so to do; that she is unwilling to go to the house where defendant and his new wife reside, and where the children are; that defendant offered her the use of his piano-forte wareroom, informing her that she could see the children there, which she declined.

In reply, Mr. Cram said that this woman disliked defendant intensely; that she was willing to do anything to get a divorce from him; that he cared for the children, and took them to provide for and educate them. Mr. Cram said that he should read a letter from the plaintiff, in which she had endeavored to influence her children against their father. This letter contained a ludicrous disquisition on the price of toys, and an enthusiastic avowal of plaintiff's happiness with husband No. 2.

The deposition of Mr. Hardenbrook was read, showing that when plaintiff visited the children at the school, she had on several occasions held conversations with the teachers of the school, on another occasion with the janitor of the building; on another with the policeman in front of the school-house—all strangers to her—in which conversations she detailed her versions of the divorce suit against her husband; that one of the children had told deponent that it made them ashamed among the scholars to have this story of the domestic troubles of their parents told to all the world.

Mr. Cram said he would also read affidavits used on a previous motion similar to this one, to show the violent temper and the revengeful feelings of this woman toward her husband. He thought the good of the children ought to be consulted. Mrs. Harris, by her own showing, had lived at the Everett House, at Mrs. Gleason's, in Irving-place, and at various other boarding-houses within a short period, and the motion was to allow the children to come to her at all these places.

His Honor took the papers and reserved his decision.

A. R. Dyott for plaintiff; Henry A. Cram for defendant.

Liability of the City for the Acts of the Comptroller.

MARINE COURT—TRIAL TERM.

Before Judge Alker.

Henry H. Morange vs. Matthew T. Brennan.—This action was brought by the plaintiff, who is a lawyer, against Mr. Brennan, the City Comptroller, to recover a portion of an amount awarded to William Bierman by the Supervisors for damages to his property destroyed by the mob during the July riots. Plaintiff claimed that he had made an agreement with Bierman to prosecute his claim for one-fourth of the amount which might be recovered; that the Supervisors had awarded to Bierman for his damages $1,500; that the defendant had been notified of the agreement made between plaintiff and Bierman, and that, notwithstanding the notice, defendant, as Comptroller, had paid to Bierman the whole amount awarded. The answer of defendant put in issue the agreement and the plaintiff's rights under it. At the close of the evidence for plaintiff, counsel for defendant moved for a dismissal of the complaint on the grounds that the action could not be maintained against the defendant, and that if the plaintiff had any claim on his alleged agreement and notice, it was against the City of New-York.

The Court granted the motion and dismissed the complaint.

Plaintiff in person; A. J. Vanderpoel for defendant.

THURSDAY, March 3—P. M.

The price of Gold is 1 ₩ cent. higher to-day on various unfavorable rumors and upon the *short* deliveries of the speculators against the rise in the Gold Room. The rates of Exchange on London for Saturday's mail are 175@175½ ₩ cent. The rates for Money keep steady at 5@6 ₩ cent., and the supply so easy to the Stock Exchange as to greatly encourage a fresh upward movement in the Railway and Mining speculation, the symptoms of which were quite palpable to-day. In the line of Coal Stocks the advance is very rapid on Delaware and Hudson, American Coal and Central Coal, and quite decided on Pennsylvania Coal and Philadelphia and Reading. Sales of Delaware were made as high as 226 ₩ cent., and the advance since yesterday on American Coal is 8 ₩ cent. Reading Shares, which fell back 2 ₩ cent. yesterday, are up again to 132 ₩ cent., and have been in strong demand for New-York account for some weeks past, while some of the Philadelphia speculators were free sellers.

On the Railway list the fever of speculation is running higher than for several weeks past, but not yet quite so general in its range as early in February. Erie Common Shares led off this forenoon with an advance of 2 ₩ cent. on yesterday's sales, and made a further advance of 1 ₩ cent. at the Second Board. New-York Central attracted fresh attention, and a further rise was made on Harlem of 2@3 ₩ cent. In several of the Western lines a heavy business was done, at advanced prices, by 1@3 ₩ cent., as compared with Tuesday and Wednesday.

The Government Stocks advanced ⅛@¼ ₩ cent. on the 5-20 years Loan; sales at 107½ ₩ cent. The other descriptions firm at Wednesday's figures.

At 4 o'clock the following prices were made in comparison with last night, the general market leaving off under considerable excitement on William-street after the regular Board had adjourned, with an additional rise of 2@3 ₩ cent. on several of the Railways and 4@5 ₩ cent. on Harlem and some of the Coal Shares. For American Coal 109 bid; Central Coal 80 bid. There was increased eagerness to buy Erie Common Stock and the price went up to 117½ per cent.

NEWS OF THE DAY.

THE REBELLION.

The Secretary of War has telegraphed Gov. SEYMOUR that the payment of bounties will be continued for the present in this State. The draft, therefore, is indefinitely postponed.

The latest advices from the Army of the Potomac do not give much additional information concerning Gen. KILPATRICK'S movements. Our special dispatch states that he crossed the Rapidan at Ely's Ford, on Sunday morning, at four o'clock, and at eleven o'clock the same day, had reached Spottsylvania Court-house, distant eighteen miles from the ford. This is very rapid traveling, and would place him in the vicinity of Richmond by Tuesday. His force is operating in three columns, devastating the country as they advance, being supplied with every engine of destruction that can possibly be used in a raid. Reports from Washington state that KILPATRICK had reached White House, on the Pamunky River, twenty-five miles east of Richmond, on Tuesday, where he probably formed a junction with Gen. BUTLER'S forces. But this is mere guesswork, as there could not well be any communication with his rear, after getting beyond Spottsylvania.

The steamship *Yazoo*, from New-Orleans, on the 25th ult., arrived here last evening, bringing details of the election on the 22d. The Free State ticket, headed by Mr. HAHN, was successful by an overwhelming and unexpectedly large vote, and the election passed off quietly. The vote is nearly three-tenths as large as the one cast at the last Presidential election, while only one-tenth was required to bring back the State into the Union. The 22d was also celebrated in a patriotic manner. Business was entirely suspended, and public festivities on a grand scale marked the day.

The Nashville correspondent of the Cincinnati *Times* professes to know something of Gen. SHERMAN'S orders, which, he says, were to proceed to Meridan, and, if possible, get a battle out of POLK. Upon his success in this depended his future movements. If he could fall upon the reverend General and destroy his command, he was to proceed to Selma direct, to which point steamboats, and even gunboats, can go most of the year; thereby leaving the conquest of Mobile and the capture of its small garrison to BANKS and FARRAGUT. But if the rebels refused to fight, and strengthened the garrison at Mobile, SHERMAN was to proceed thither and lay siege to the place.

A horrible story of the blood-thirstiness of a gang of brutal villains, is told by the clerk of the steamer *Pringle*, which, on the 14th of February, stopped at Tecumseh's Landing, five miles above Grand Lake, Miss., on a foraging expedition. A company of the First Missisippi (Colored) Infantry, was doing guard duty a mile and a half in advance of the main body, when they were surprised by sixty well-mounted and armed rebel guerrillas, dressed in Union uniforms, who captured them, and then shot and bayonetted to death the whole party but two, who, feigning death, escaped. The guerrillas escaped. This report bears every evidence of being entirely true.

Admiral DAHLGREN and Staff arrived at the Navy-yard in Washington on Wednesday evening last, having left Charleston Bar on the evening of the 27th of February. Commodore ROWAN is temporarily in charge of the fleet. It is reported that Admiral DAHLGREN is relieved from command of the Charleston fleet.

The *South Eastern* (Eng.) *Gazette* states that two steam vessels, the *Garland* and the *Jupiter*, lately belonging to the London, Chatham and Dover Railway Company, have been purchased for the Confederate States of America.

FROM EUROPE.

The *Canada* arrived at Halifax yesterday, bringing European advices to the 21st, an interesting telegraphic summary of which has been forwarded. On the 15th inst., after nightfall, the pirate *Georgia* stealthily vacated her rendezvous in the harbor of Cherbourg, and we may soon expect to hear of her further depredations upon our commerce. Several United States vessels arrived in the roadstead on the night of the *Georgia's* escape. The case of the *Pampero* had again been before the Court of Exchequer in Edinburgh, and the defendants asked for a dismissal, on the ground that the proceedings were informal. The matter was adjourned, that opportunity for a reply might be afforded the Crown Solicitor. In Parliament, alleged seizures by Federal cruisers of British vessels in neutral waters had been under discussion, and in the course of the debate it was shown that the instructions by the United States Government, to naval officers, was very explicit against capturing under such circumstances, and that if a case of this kind occurred, prompt reparation would doubtless be made. A vague rumor, on the 18th, that France intended soon to recognize the Confederacy, caused a rise of the rebel loan stock, but next day doubts of the truth of the rumor sent the stock back to its old figures. There was no material change in the situation of the Dano-German war. The Austrians, on the 18th, attacked the Danes in their intrenchments at Duppel, and were repulsed. An Austrain fleet of twelve war vessels had been ordered to cruise for the purpose of checkmating Danish naval operations. A growing feeling in favor of the Danes was manifest in the tone of French and English sentiment, while the high handed proceedings of Prussia and Austria were exciting the jealouiees of the minor German States to such an extent that opposition was not improbable. The Italian Government were openly purchasing supplies and war material in France, and an impression prevailed that this was ominous of the inauguration of war on the Adriatic. MAXIMILIAN was making farewell visits prior to his departure for his Mexican Kingdom. The Poles, in late operations, had gained further successes over the Russians.

CONGRESS.

In the Senate, yesterday, Mr. SPRAGUE presented the memorial of merchants of Rhode Island, in behalf of the South American Steamship Company. Mr. LANE, of Kansas, presented a joint resolution of the Legislature of Kansas, praying for the removal of all Indians from that State to the Indian Territory. Mr. WILSON called up the House bill extending bounties to April 1, and he read a letter from the Secretary of War recommending its immediate passage. The bill was passed. Mr. DAVIS, of Kentucky, submitted an amendment to the joint resolution amending the Constitution; the amendment provides that no person or negro whose mother or grandmother was a negro, shall be a citizen, or hold any civil or military office; that the States of Maine and Massachusetts shall constitute one State to be called East New-England; the States of New-Hampshire, Vermont, Rhode Island and Connecticut, another State to be called West New-England. The bill to prevent military interference in elections was called up, and Mr. POWELL addressed the Senate at length in favor of the bill, when the Senate adjourned.

In the House, yesterday, the bill relating to the jurisdiction of the Court of Claims over war losses was referred to the Judiciary Committee. A resolution to print 10,000 copies of Gen. GRANT'S military report was referred to the Committee on Printing. A resolution was introduced to print 60,000 copies of the Agricultural Report of 1863. The report of the Ways and Means Committee, against the surplus gold resolution, was taken up, and Mr. STEBBINS, of this City, made a very forcible speech in favor of the principle of the resolution. Mr. FENTON also spoke in the same strain. Both gentlemen offered substitutes for the pending resolutions, but without taking further action, the disagreement of the Conference Committee on the whisky tax was announced. After discussion, the House by 71 to 61, voted to stick to its proposition to tax whisky on hand. If the Senate does not ask for a new Committee, the bill fails.

GENERAL NEWS.

The Board of Aldermen met yesterday. They adopted, by unanimous vote, the resolution to purchase and have erected at some suitable place in the City CLARK MILLS' duplicate bronze equestrian statute of JACKSON, at a cost of $33,500. The original cost $52,000, and the mould from which the casts were made has been destroyed by fire, so that there will be no other fac-simile taken. The duplicate was prepared for the State of Virginia, but the rebellion interposed an insurmountable obstacle to the completion of the terms of the contract for it. The board adopted the resolution to appropriate $12,000 for the erection of a monument over the Catholic soldiers' grave-plot in Calvary Cemetery under the auspices of the Joint Committee on National Affairs. This resolution passed both Boards last year, but failed to receive the Mayor's signature, and the year was too near the end to permit it to become a law by default. A resolution to widen the esplanade in front of the City-Hall twenty-nine feet, was referred. The Mayor sent in two memorials, one signed by merchants and owners of real estate, and the other by cartmen in the lower wards, invoking action of the Common Council "to abate the nuisance caused by the form and construction of the rails laid down in Washington, West, Greenwich, South, Water and Front streets." The message and memorials were referred to the Special Committee appointed a short time ago to consider this subject, (on a resolution presented by Alderman RYERS,) and who are now engaged in taking testimony and hearing suggestions pertinent to it. The Mayor also sent in complaints of citizens that the fat-boiling establishment at the foot of West Fortieth-street, and the varnish factory in West Thirty-ninth-street, are nuisances, which also were referred. The Comptroller replied to a resolution of inquiry that some of the laborers in the departments do not get their pay promptly because of delays necessarily incident to a rigid auditing system he has adopted, as required by the charter, which prevents payments of fraudulent pay-rolls till special examinations are made and the improper claims are excluded. These examinations were, by his order, turned over by the Auditor to the City Paymaster, who was required to examine doubtful parties under oath. But Mayor GUNTHER declines to countersign any warrants for payment unless the Auditor certifies. This, the Comptroller says, is impossible, as the Auditor cannot verify what he has not examined, and does not know the correctness of. The resolution to prevent the use of the carriage-way of Battery-place and the sidewalk adjoining Pier No. 1, N. R., from being used for commercial purposes by the temporary storage of casks, bales, &c., was laid over upon the understanding that the obstructions will speedily be removed by the owners. The Board adjourned to 1 o'clock P. M. on Monday.

The Board of Councilmen adhered to their former action favoring a new issue of bonds, to run two years from November, to pay the Union Defence Fund Redemption Bonds, due on the 1st of next November. (This debt is already provided for in that portion of the annual appropriation bill which was passed Feb. 12, providing for the expenses of police telegraph, police station-houses, (rents of, repairs to, &c.,) interest on the City debt, and payment of the principal of it, falling due this year.) The Finance Committee were authorized to act as a conference committee upon the subject, on the part of the Board. The whole question is whether a debt of $895,500 shall be paid off this year by taxation, or put off and continued at interest, at a cost of over $125,000, for two years, in the hope that, in the meantime, Congress will refund the money which was advanced in 1861 to equip and arm troops sent from this City to the seat of war. The Board concurred to request our members of the Legislature to protest against the proposed act to create a Market Commission for this City. The resolution to donate $300 to a widow named MULHARE, in consideration of the loss of an eye by her little son of eight years, who was shot by the military during the riots last July, was taken up, debated briefly, and finally refused. Mr. BRANDON said the Supervisors could not pay for personal damages, but he thought the City ought to. He was not afraid of having more claims of like character. They ought to be paid, when found to be just. Mr. JACQUES said it was difficult to fix a limit in such cases, but a sound discretion should lead to the payment of such damages in particular cases. Adjourned to Monday, at 1 P. M.

Heavy sales of Breadstuffs were reported yesterday. Flour was quoted at an advance of 5c.@10c. per barrel; Wheat, 1c.@2c., and Oats, 1c. per bushel. Corn was cheaper. The principal purchases of Flour and Wheat were made for export. Provisions were in fair demand, as were also the leading kinds of Groceries, Hay, Hops, Tallow, Cloverseed and Tobacco. Whisky was more active and dearer. The freight engagements were checked by the scarcity of shiproom and the advance in rates.

There was much speculative excitement on the Stock Exchange yesterday, and a large advance in prices on the Railway and Coal Stocks. The Government Securities were also firm. The price of Gold and Bills on London advanced 1 ℘ cent.

The Third Annual Commencement of the Bellevue Hospital Medical College took place last evening at the Academy of Music. The degree of Doctor of Medicine was conferred on ninety-seven gentlemen, coming from twenty-six States of the Union, and from Nova Scotia and Canada. The hall was densely packed, and many turned away unable to gain admission.

LONGSTREET'S REPORTED ARRIVAL AT RICHMOND.—We hardly think any one need be made unhappy by the announcement which comes to us from Washington, that LONGSTREET'S forces have arrived at Richmond. In the Lynchburgh *Republican* of Feb. 26 we find a statement, taken from the Jonesboro *Telegraph* of Feb. 24, and the Bristol *Gazette* of Feb. 25, to the effect that LONGSTREET'S forces had fallen back to Greenville and Bull's Gap. In addition, a dispatch from Gen. LONGSTREET himself, dated Greenville, Tenn., Feb. 27, appears in Richmond papers of the 29th. The railroad communication from Greenville to Richmond is notoriously inadequate for the rapid transportation of large bodies of troops, and it would have been a physical impossibility for LONGSTREET'S command to reach the rebel capital by that or any other route between the dates named (Feb. 27) and March 2. Then, again, had LONGSTREET left the vicinity of Knoxville to make a rapid movement to Richmond, the papers published at Bristol or Lynchburgh would assuredly have made some reference to the passing of troops through those places. Finally, if LONGSTREET had been ordered east, his troops would unquestionably have been at once incorporated with LEE'S army, and the probabilities are altogether against their going further than Gordonsville. It is pretty plain, therefore, that KILPATRICK need not fear finding LONGSTREET'S men behind the Richmond fortifications when he shall reach them, as we hope he has already done.

The Opposition in Congress—Its Lack of Spirit.

The Congressional session has not yet lasted two full months, but it has already completely exposed the disgraceful charlatanry by which the Congressional elections were carried, to so large an extent, by the agitators against the Administration. The main issues on which these demagogues went before the people were the following:

No conditions precedent for return to the Union.
No refusal to negotiate.
No Emancipation by Federal authority.
No "arbitrary arrests."
No negro soldiers.
No conscription.

By dint of misrepresentation, sophistry and incessant clamor on these topics, at a period when the spirit of the people was much depressed by a succession of military reverses, they secured a very large number of seats in the popular branch of Congress. At one time it seemed probable that they would obtain the actual majority; and this result was averted only by the elections which occurred in a few of the smaller States at a later date, when the sinister and dangerous character of this opposition to the President had become better understood. Even as it was, they came within seven or ten votes of gaining that majority. They cast *eighty-nine* votes against SCHUYLER COLFAX for Speaker. This number, we suppose, may be taken to be the true measure of the strength of the Anti-Administration party of the House.

The absolute hollowness of the professions by which they, *as a party*, deceived the people, has been evinced by their practical conduct when required to face their public responsibilities. On not a single issue which, as candidates, they agitated against the Administration have they presented a united front, or anything like it, in the House. On some of these they have not been able to rally a third of their strength, on some not a half, on scarcely any more than two-thirds. As the session has advanced their rally has been feebler and feebler. Let us look at the votes.

First—As to restoration without conditions precedent. Mr. ROGERS, of New-Jersey, Democrat, on Jan. 8, presented resolutions, affirming that the rebels "have a right to return with their domestic institutions as they were before the war, and to elect Representatives to Congress, without any conditions precedent." On the motion to lay on the table only *forty-two*, less than half of the party, voted in the negative.

Second—As to the policy of negotiation, Mr. BALDWIN, of Massachusetts, Union, on Jan. 8, presented a resolution, that "every proposition to negotiate with the rebel leaders should be rejected without hesitation or delay." Only *sixteen* of the party, less than a fifth, voted in the negative.

Third—As to Federal emancipation. Mr. EDGERTON, of Indiana, Democrat, on Dec. 18, presented a resolution condemning the proclamations of the President in regard to emancipation, and asserting "the right of each State to order and control its own domestic institutions, according to its own judgment exclusively." Sixty-six of the party, about two-thirds, voted against the motion to lay on the table.

Fourth—As to summary arrests by military authority. Mr. PENDLETON, of Ohio, Democrat, on March 1, presented a resolution that the military arrest and banishment of VALLANDIGHAM were "acts of mere arbitrary power, in palpable violation of the Constitution and laws of the United States." Only *forty-seven*, but little more than one-half of the party, voted in the affirmative.

Fifth—As to enlisting negroes. Mr. GRINNEL, of Iowa, Union, on Feb. 2 presented a resolution that "a more vigorous policy, in order to secure a larger number of persons of African descent in the army would meet the approbation of the House." Only *forty-six*, a little over one-half of the party, voted in the negative.

Sixth—As to conscription. The Enrollment Bill, as finally perfected, including a clause to enroll all resident negroes in the United States, whether they had been slaves or not, was passed Feb. 13, with only *sixty* votes, two-thirds of the party, against it.

It is impossible to reconcile these votes on the chief issues which they originally took with the Administration, with honest devotion to principles. Many members of the party individually have been consistent, but the party itself has utterly failed in Congress to come up to the ground it first assumed out of Congress, for not taking which it first opened its war upon the President. It is idle to say that circumstances have changed. The party made most of its issues on what it called inviolable constitutional principles; and if these principles were inviolable a year and eighteen months ago, they are just as much so now. One or two of its issues, perhaps, turned rather on public policy than on constitutional principle—as the non-employment of colored troops, and the show of a conciliatory spirit. But if negroes were unfit to fight at that stage of the war when these Congressional elections took place, they are no more fit now, for the qualties of the race remain the same. So, too, if it be futile and mischievous to extend the "olive branch" now, it was just as much so then; for the disposition of the rebels has undergone no change.

What is even yet more striking than this inability of the party in Congress to marshal itself in force on any position whatever against the Administration, is its general change, since the session opened, in temper and spirit toward the war. This is easily illustrated. In the second week of the session, GREEN CLAY SMITH, of Kentucky, submitted the following resolution:

> *Resolved*, That as our country and the very existence of the best Government ever instituted by man, is imperiled by the most causeless and wicked rebellion that the world has ever seen, and believing as we do that the only hope of saving the country and preserving this Government is by the power of the sword, we are for the most vigorous prosecution of the war until the Constitution and laws shall be enforced and obeyed in all parts of the United States, and to that end we oppose any armistice, or intervention, or mediation, or proposition for peace from any quarter so long as there shall be found a rebel in arms against the Government; and we ignore all party names, lines and issues, and recognize but two parties in this war—patriots and traitors.

This resolution covered the whole ground of the necessity of the war, to the exclusion of every other policy. *Sixty-four* of the party answered "no" on the test vote. A month afterwards, Mr. SMITH again proposed a resolution, which was of exactly the same import. It read as follows:

> *Whereas*, A most desperate, wicked and bloody rebellion exists in this the jurisdiction of the United States, and the safety and security of personal and national liberty depend upon its absolute and utter extinction; therefore,
>
> *Resolved*, That it is the political, civil, moral, and sacred duty of the people to meet it, fight it, and forever destroy it, thereby establishing perfect and unalterable liberty.

Only *sixteen* of the party voted against it. Last Monday, Mr. SCHENCK, of Ohio, presented resolutions

> "That the present war against the armed insurgents, banded under the name of the Southern Confederacy, was brought on by a wicked and wholly inexcusable rebellion, and all those engaged in, or aiding and abetting it, have incurred the name of public enemies, and should be treated as such.
>
> That in the struggle now going on for the safety of our country and free government there is no middle ground on which any good citizen or true patriot can stand, neutrality or indifference, or anything short of a hearty support of the Government, being a crime where the question is between loyalty and treason."

Both of these were *unanimously* adopted, though there had been sixty-four votes against Mr. SMITH'S December resolutions, which were of precisely the same scope. Thus the original audacity of the party against the Administration has gradually subsided, so far as general principles are concerned, into the blandest acquiescence.

The reason of all this lack of stamina in the Opposition party is obvious enough. They have had, from the beginning, a consciousness that they had no definite *positive* principle which was consistent with genuine loyalty. Sophisticate and clamor as they might, they yet could not help feeling that the rebellion could be overcome by war only; that war, to be effectual, involves the use of all war powers, all war means, all war resources, and that they could not refuse these to the Administration without ruining themselves with the people. They could not forget that the time for a new Presidential election and for new Congressional elections also, was fast approaching. They knew that their doom was inevitable if they held squarely to their old positions, and have thus been, all the while, backing down more and more. But no such retreat will save them. They obtained their seats by factious means with factious aims. The people, though accepting them once, have since repudiated them, simply because they are better understood. They may shift and cower to suit the altered regards of the people, but it will be all futile. The record stands that they sought to cripple and disable the Government when it was most hard pressed by the rebellion. Nothing that can be done now can change that record, and nothing could be more surely fatal.

The Danish and Virginian Campaigns.

The British *Army & Navy Gazette* calls attention to the recent campaign of Austrians and Prussians in the Duchies, as contrasting, in its energy and efficiency, with the slow and fruitless campaigns in the American civil war. The Allies, it states, had before the battle of the Dannewerke about the same number as the Federalists in the battle of Chancellorsville, and the Danes were not larger than LEE'S army; yet in ten days the Danes were defeated a number of times, pursued uninterruptedly, and finally entirely driven out of their ancient possessions. The *Gazette* finds in this an instance of the value of European organization and discipline, as opposed to our brute confidence in numbers, and our lack of both of those essentials.

We admit that this campaign of the German Allies has been a highly creditable one—contrasting wonderfully, in energy, with former military expeditions of both these Powers. Almost to overthrow a European monarchy, defended by a brave race of men, in ten days, is certainly a military achievement to be proud of.

But how the editor of the *Gazette*, knowing as he does the physical conditions of both countries, could compare our campaigns with this, we do not understand. Holstein and Schleswig are almost the flattest countries of Europe; the roads are at least a thousand years old, built in the very best manner; every path and hillock are known and mapped out through the whole country. The great defence of the Danes was the inundation of portions of the Provinces, which would protect their flanks.

The Allies outnumbered their opponents, and their problem was the simple one of hurrying on in order to obtain the advantage of the cold weather, and cross the marshy grounds on the ice, so flanking the lines of defence. The whole struggle was as simple as Gen. BURNSIDE'S assault on Roanoke Island, or the Newbern batteries. Flank movements on lines of fortification were all the strategical problems involved.

Compare, on the other hand, the conditions in Virginia. You have there, in the first place, a district as rough and as inaccessible as, for instance, the Saxon Switzerland—broken up with hills, covered with forests, and, at every few miles, cut with rapid streams, having abrupt banks. The battle of Chancellorsville was fought in part, in a country which even the inhabitants, accustomed as they are to the roughest features of wild lands, have christened "The Wilderness." It is a district of tangled thickets and impassable quagmires. The roads there and in other parts of the State are such that, in times of peace, no farmer thinks of going even a few miles on them by foot, if a storm has occurred, or it is in the Winter season.

In a battle in such a country, nothing can be seen of the other side. Your opponent's movements are hid in impenetrable obscurity. If he knows the bye-paths and country roads, he necessarily has a great advantage. But anything like rapidity of pursuit, or brilliancy of strategy, is forbidden by such conditions. If either side chooses to retreat, he can cover his operations so that his opponent will know nothing of his intentions. A cavalry pursuit is nothing, where the first swamp or rocky rivulet will be a post for a battery to drive back the pursuers.

The only brilliant operations on the side of the rebels have been simply the flank attacks of STONEWALL JACKSON, which he was enabled to make from his thorough acquaintance with the country.

No possible comparison can be made between European and American campaigns, the physical conditions are so different. It should be remembered that the whole territory marched over and over by the Allies in the Danish war is not larger than some counties in Virginia. If European critics will only enlarge their scale of comparison, if they will imagine a war for the conquest of Russia or half Europe, they will better understand our military difficulties and the reality of our successes.

Something of the uncertain success of our battles is also due, without doubt, to the remarkable tenacity of the American character. Both sides do not readily know when they are beaten, and if they are pressed back are seldom "demoralized." An intelligent soldiery bears defeat, of course, better than an ignorant one.

Of the grand battles of our campaigns we have at least nothing to be ashamed of.

HARD NUTS TO CRACK.—Few people are aware of the large number of impregnably fortified works that are being constructed along the Mississippi River by our troops—mainly by our negro troops. By *impregnable* we do not mean that all these works are absolutely beyond the possibility of capture by any conceivable force; but simply that they cannot be taken by any enemy that could be marched or massed against them—not, for instance, by the whole military power of the Southern Confederacy, much less by the combined armies and navies of France and England. The rebels indicated to us what were the strongest natural positions on the river; and some of them they made a hard effort to hold, but in each and every instance they failed for want of the proper appliances. These positions, such as Port Hudson, Vicksburgh and others, have been taken hold of by our troops, and around them have been built new works, compared with which the rebel works were contemptible, while our appliances of artillery and our iron-clad naval supports add indefinitely to their superiority. We venture to say that if JEFF. DAVIS were to marshal all the armies of the South against *Vicksburgh*, he could not capture it in twenty years, nor, for that matter, in twenty centuries. And there are twenty places on the Mississippi River of which the same thing might be said. We should like to inquire of JEFF. DAVIS what he proposes doing about it?

GEN. BRAGG FINDS HIS PLACE AT LAST.—JEFF. DAVIS has assigned Gen. BRAGG, the most unfortunate of all his officers, to duty at Richmond, charged, as the order says, "with the conduct of military operations in the armies of the Confederacy." This, we suppose, is a position analogous to that which Gen. HALLECK has held in our army; and we judge that Gen. BRAGG'S duties will be mostly of an advisory, critical, or fancy nature. The post is only created for him as a sort of refuge for one of the rebel President's personal favorites; and the rebel papers are all busy grinning at the appointment, and going over the "melancholy bead-roll" of defeats of which BRAGG has been the hero, and for which he has been crowned with such honors as JEFF. DAVIS can give. But let BRAGG rejoice at his new field of inaction. He has made his last retreat; he has had his last defeat.

Amusements.

ACADEMY OF MUSIC.—DONIZETTI'S opera of "Lucrezia Borgia" will be given here to-night, with Mme. MEDORI, Mlle. SULZER, Signor MAZZOLENI and Signor BIACHI in the principal *rôles*, and the other leading artists of the company in the grand finale to the first act.

On Saturday GOUNOD'S "Faust" will be given for the first time at a matinée. In order to prevent a crowd at the doors, the manager suggests that his patrons should purchase their tickets in advance. Three additional ticket offices have been opened for this purpose.

IRVING HALL.—In consequence of the continued indisposition of Signor BRIGNOLI, it has been necessary to withdraw his name from the programme of Mr. L. F. HARRISON'S testimonial concert on Saturday. The public will be delighted to hear that Signor MAZZOLENI has in the kindest way offered to take his place, and with Mme. MEDORI will sing for the first time at a concert.

Flag Presentation at the Washington-square M. E. Church.

Rev. J. P. NEWMAN, pastor of the Washington-square M. E. Church, having been assigned by Bishop AMES to take charge of the Methodist churches in New-Orleans, was presented last evening, by the young ladies of his Church, with a beautiful flag. On the banner was inscribed, "New-York to New-Orleans greeting—from the Washington-square M. E. Church. The meeting was opened with prayer. Several national airs were sung by the choir under the direction of Prof. J. L. BENJAMIN. The presentation speech, made by Miss H. A. KEYSER, was exceedingly beautiful and appropriate. Dr. NEWMAN, in responding, made a very effective address. His allusions to our victories and the freedom of the slave elicited warm applause. The Doctor, during his remarks, referred to the prominent part the Methodist Episcopal Church had taken toward the suppression of the rebellion, and paid a high compliment to Bishops SIMPSON, AMES and JAMES. He denounced Copperheadism, and stated that he was in favor of peace with Union and Freedom; but if peace could not be had without sacrificing the integrity of the Government and the preservation of the Union, let us have "war, war, forever!" He spoke of the equality of races, and said that all men were "entitled to life, liberty, and the pursuit of happiness," and the development of the powers God had given them. The Doctor was frequently interrupted by applause during his remarks. Bishop JAMES followed Dr. NEWMAN in a short speech. The proceedings closed with a song composed for the occasion, sung by a fine quartette, a patriotic song by the choir, and the benediction by Bishop JAMES.

FROM ALBANY.

The Governor's Message—New-York City Railroads—Payment of Bounties—"Strippings."

Correspondence of the New-York Times.

ALBANY, Thursday, March 3, 1864.

The discussion of the Governor's Message was continued in the Assembly last evening. Mr. PLATT, of Suffolk, spoke in defence of the message. This speech was noticeable as being the second of the session on this subject from the Democratic side of the House. It was in itself, also, a creditable effort, aside from the principles advocated.

On resuming their labors after recess, the two Houses take hold of their work with commendable industry. They begin daily sessions earlier than the regular hour, and regular evening sessions are provided for thus early in the session. This industry is made necessary by the large number of local measures pressed upon the attention of the Legislature. The New-York City railroads are prominent among these measures. The interest which attaches to these railroads is so great, that if each party in interest had a committee all to itself, such parties could hardly be heard to their entire satisfaction.

One of the points of legislation which have been deemed political came up this morning in the Assembly, and elicited debate. Mr. McCONVILL, of Monroe County, has several times in the course of the session urged, and with ability, the passage of a bill legalizing the action of the Supervisors of Monroe County, in passing resolutions providing for raising money to enlist men. As the resolutions were worded, the money might be paid to men who are enlisted or drafted, or procure substitutes if drafted. Sharp debate occurred upon this point of paying money to one who procures a substitute, several weeks ago, and the debate was renewed to-day. A proposition to amend the bill so as to provide that the money can be raised only for those who serve in the ranks, was pending when the bill came up. Members from Monroe County urged upon the House the importance of sanctioning the action of the Supervisors, and approving the resolutions just as passed by them, in order that there might be no delay or repudiation. Money had been borrowed upon the security of this action. They assured the House that Monroe County had raised its full quota by volunteering, and, as there had been no draft, under the proceedings of the Supervisors, no money had been paid in the way objected to. The pending amendment was lost, and another, suggested by members from Monroe, inserting the words "shall serve himself," was adopted. Thus the principle contended for by patriotic members was recognized, but in the form which the special friends of the bill themselves proposed.

A somewhat protracted discussion occurred in the Assembly, in considering the bill "To Punish the Adulteration of Milk." The point was in reference to inserting in the bill a provision that no part of the milk known as "strippings," or the milk last obtained from the cow at each milking, shall be kept back. The richness of this portion of the milk, the difficulty of precisely defining "strippings," and other points of interest, were commented upon at great length by members, who claimed to be practical farmers and dairymen. Some were confident that "strippings" could be defined and the law carried out; others were equally confident that the whole thing was so indefinite as to render the bill wholly impracticable. After debate, which amounted to little more than assertion on each side, Mr. OLVANY, of New-York, moved that the committee having the matter in charge be instructed to procure a good cow and experiment in regard to "strippings." This resolution wound up that branch of the debate, and the provision was not inserted in the bill. After further discussion upon its general merits, the bill was ordered to a third reading.

The Brooklyn Fair.

The great Sanitary Fair of the great-hearted Brooklyn people still pursues its unwavering course of complete success. It will certainly last to-day and to-morrow—how much, if any, longer, is yet undecided. Though stocks of goods and supplies of eatables are again and again exhausted, they are as often replenished, and the attendance is undiminished. The Picture Gallery still fascinates admiring crowds; the great hall is still thronged with a surging mass of wondering, curious people, intent on inspection and investment; the Knickerbocker Hall and the New-England Kitchen still attest their abundant capacity and complete management, by feeding and sending away satisfied thousands of hungry ones. The Kitchen has been a great institution; it has been managed in a capital manner; the attention at the tables has been faithful beyond expectation; the quality and cooking of the food most excellent, while the good, old time fashions and customs and courtesies of our grandmothers have been a source of enjoyment to an appreciative heart, and have given zest to a vigorous appetite. We know whereof we speak. We entered and ate *in cog.*, and Jerusha administered unto us our fill of pork and beans, pumpkin-pie, apple-sauce and sweet cider. The representation is faithful, for the Brooklyn people have not forgotten the traditions of their ancestors, any more than they have forgotten how to be patriotic, liberal and noble-hearted.

The New-England Wedding in the Kitchen was the feature last evening. About 200 spectators were present at $3 for each ticket. Mehitable Jones and Jedediah Simpkins were united in the bonds of wedlock by Rev. Jedediah Poundtext; there was singing by the choir; there was a kissing of the bride; refreshments were handed round, and then the floor was cleared, and there was dancing—all in due and ancient style.

Since the above was written, we learn that the fair will be formally closed on Saturday night, and that the auction sales will take place during the early days of next week. The receipts up to date are $310,000 above expenses.

BRANDRETH'S PILLS.—THEY EXPEL the poisons which threaten life. Every time a sick person is purged by this vegetable remedy he has less vitiated humors, and more life and vigor, as any one can prove by taking a single dose. Persons of spare habits gain flesh and strength while using them. Every time we rest a few days or weeks from the purgation we make new fluids from our food, which replace the unsound ones that the Pills have caused to be evacuated. Each time we repeat this process, we expel further quantities of impurities, which are again replaced by fluids less and less impure, so that in a short time, by continuing this treatment, we bring back the whole mass of fluids or humors to that state of purity which constitutes health, for Brandreth's Pills only take away humors which are unsound.

BRANDRETH'S PILLS are sold at 25 cents per box, enveloped in full directions. Purchase none unless my PRIVATE GOVERNMENT STAMP is on the box. See upon it B. BRANDRETH in white letters.

DEAFNESS AND CATARRH CURED.

No. 420 Sixth-av., New-York, Dec. 2, 1863.

I was deaf for several years, and hearing of the great cures performed by Dr. Von Eisenberg, I was induced to place myself under his care, and I am now happy to state that my hearing was entirely restored after a short treatment. I was also suffering from chronic catarrh, of which I was also cured by the skillful treatment of Dr. Von Eisenberg. I do but justice to the Doctor in stating that in treating me he displayed that skill and knowledge which have already procured for him such a deserved reputation, and that the principles which direct his system of curing Deafness and Catarrh are such as to render success certain, in my opinion. Many months have passed since Dr. Von Eisenberg restored my hearing, and it continues as good as ever.

CATARRH CURED.

READ!

I have been suffering for a long time from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery, and very painful. My nostrils were constantly obstructed with a pouring fluid. That frequent sneezing, hoarseness of my voice, often attended with a fullness of my throat, great soreness, and a continual dropping. Dr. Von Eisenberg has cured me of all these disagreeable sufferings. I may, indeed, say that I feel a new life. The treatment of Dr. Von Eisenberg is as skillful as it is successful. It is in my opinion impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. Von Eisenberg's care, with a certainty of being speedily cured.

Harlem, July 30, 1863.

I have been deaf for over twenty-five years, and Dr. Von Eisenberg operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now *hear* well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest practical ability. I *hear perfectly*. It is now over a month since the operation, and I continue to feel as well as ever.

WILLIAM LIDDLE,

No. 134 Allen-st., New-York, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.

JOHN TAYLOR.

New-York, July 19, 1862.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing*. Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. It is with grateful thanks that I give this testimony to his skill.

CHRONIC CATARRH CURED.

READ.

New-York, March 20, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of a cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

A CLERGYMAN CURED OF CONSUMPTION
BY SCHENCK'S PULMONIC SYRUP.

Clergymen, read this, and if you feel convinced, it is your duty to recommend the means for healing the body as well as the soul.

Boston, Mass., Dec. 2, 1862.

Dr. J. H. Schenck: Sir—I feel it my duty for the sake of the sick and suffering of humanity, to relate to you the following facts:

Last May I was attacked with hemorrhage of the lungs and bled profusely, and, not finding the proper remedy, still again I bled in one month later, and became weaker than before. Then I fully comprehended the danger, and cast about me for an ægis from the impending doom.

Naturally skeptical and fearful of being duped, having an inveterate abhorrence of empirics, I was slow to trust; and with regard to your medicines I was obstinate, even to a fault. Not until the living witnesses, healed, recovered, with full breathing power, stood before me would I be persuaded. Not until the efficacious balm was purchased and brought to my room, and forced upon me, would I try it. Two of my parishioners informed me of their wonderful recovery; one had taken nineteen bottles of the Pulmonic Syrup for bleeding of the lungs, and was completely cured, and is now doing battle in the service of his country. The other was a person who was on the verge of death for more than a year, bleeding at every little excitement, and despairing of recovery until she found relief in your Syrup. She came before me apparently in the very bloom of health, with brilliant, florid countenance and portly bearing—the last person I should have suspected of having ever been under the pale sheet of New-England's fell destroyer—Consumption.

She looked to you as the mighty deliverer from its scourge, and to your Syrup as a panacea from the complaint. She was a member of my church, and felt an interest in my recovery, and though sanguine and even enthusiastic, as she had a right to be, because she herself had been healed, yet there stood the living visible truth before me. Could I doubt her word? Could I refuse a remedy so mild, so palatable, and yet so efficacious? No! Life was too precious, yet too precarious, to delay a moment. I took six bottles of the Syrup, and recovering rapidly, I went into the country for three months for the benefit of the air.

But alas! the air could not benefit me without the medicine. I went without that, and after bleeding again I resolved to come back. I was much fatigued on arriving in Boston, and bled the same night. My case was again critical. I immediately applied for the Syrup, and soon began rapidly to improve and recover what I had lost. I am still under treatment, but have nearly recovered. I never weighed so much as I do now. I never looked so full in the cheek, and, excepting a nervous weakness about the chest, and a frequent eructation of wind, I am quite strong. These, however, are receding before the MANDRAKE PILLS and SEA-WEED TONIC. I have taken them but a few days, but have found great relief. According to present appearances, I shall be able to preach again very soon, and come out of this sickness stronger than I ever was before.

As our callings are similar in striving to relieve the ills of life—you for the body, I for the spirit; you for the sick, and I in preaching to the poor—I feel it my duty to lay before the world my testimony in favor of your Pulmonic Syrup. Yours, HENRY MORGAN, Pastor of the Union Mission and First Independent Methodist Church of Boston.

P. S.—Feb. 8. Preached this day for the first time after my illness; feel a little sore at the breast, but nothing more. March 1, preached twice; feel quite strong. March 22, preached three times, and held meeting every night; therefore, I may be considered a well man. Thanks to the name of Dr. J. H. SCHENCK. Under God, your medicines have cured me.

In reply to the many inquiring letters sent me from almost every Northern State, I say to one and all I am the man; and wherein I was sick I am now healed. I am not the only one relieved in these parts, but several of my acquaintances have been recently benefited. One of my parishioners after spending a large sum on physicians, and growing in nothing better, but rather worse, applied, as a last resort, for the Syrup. At first it did not agree with him; it was too sweet, and threw him into violent retching. He then took the Tonic and the Pills to prepare the way for it, and persevered in taking it until now; instead of going to sea as he contemplated, to save his life, he has gone to work. And many others I might name. I have taken thirty bottles of the Syrup and many of the Tonic. The Tonic and Pills, I perceive, are in great demand in Boston.

Yours, H. MORGAN.

Dr. SCHENCK will be at his rooms, No. 32 BOND-ST., NEW-YORK, EVERY TUESDAY, from 9 A. M. until 3 P. M., for consultation and advice. He always has a full supply of medicines at his room, which can be had at all times. Price of the PULMONIC SYRUP and SEAWEED TONIC, each $1 per bottle, or $5 the half dozen. MANDRAKE PILLS, 25 cents per box. CONRAD FOX, No. 81 Barclay-st., wholesale agent for New-York.

MR. WILLS'S NEW NOVEL.

HARPER & BROTHERS, New-York,
Publish this Day:
THE WIFE'S EVIDENCE.
A NOVEL.
BY W. G. WILLS,
Author of "Notice to Quit," &c.
8vo, Paper, 50 cents.

A very powerful and interesting novel; true to nature, in its characters and its emotions. The construction of the story is ingenious, and the manner in which it is worked out is singularly effective in the truthfulness and deep natural pathos with which it is imbued.—*London Sun.*

This story fully sustains the promise of Mr. Wills's former works.—*John Bull.*

A remarkable novel. It has a marked, earnest purpose, urged with the utmost power. It is a story of rare and intense interest.—*London Morning Post.*

This story is very powerfully written, and imbued with a fascination which excites and sustains the reader's interest from beginning to end.—*London Daily News.*

In Mr. Wills's novels masculine power and strength of conception rise to the very verge of genius. The absorbing interest of the story will make this tale deservedly popular.—*London Spectator.*

LYMAN BEECHER'S AUTOBIOGRAPHY AND CORRESPONDENCE. Autobiography, Correspondence, &c., of Lyman Beecher, D. D. Edited by his Son, Charles Beecher. With Two Steel Portraits and Engravings on Wood. In two volumes. 12mo, Cloth. (Vol. I. just ready. Price $1 75.)

If the reader can imagine the Vicar of Wakefield in America, this memoir will give a very good idea of what he would be among Yankee surroundings. There is the same purity, sincerity and goodness of heart, the same simplicity of manners and directness of purpose, in Dr. Primrose and Dr. Beecher, though the go-ahead society in which the latter divine lived failed not to impress its character upon him. This is as instructive and charming a book for family reading as can be taken up for that purpose.—*London Daily News.*

All that the old man writes is clever and sagacious.—*London Athenæum.*

A hundred pleasant things we must pass by; but readers of this charming volume will not do so.—*London Wesleyan Times.*

There has been no American divine deceased of late years, the history of whose life and character is likely to prove more attractive on this side of the Atlantic.—*London Star.*

A POPULAR HAND-BOOK OF THE NEW TESTAMENT. By George Cumming McWhorter. 12mo. Cloth, $1.

Books like this are among the most useful publications of the time. They rescue knowledge from the grasp of the few, who are too often its tyrants, and place it at the service of its rightful possessors—the many. They help to educate the world, in short, and by so doing add to its enjoyment and happiness, to its right-thinking and well-being. The little volume before us contains nearly all that the general reader will be likely to want to know concerning the New Testament.—*The World.*

III.

VERY HARD CASH; A Matter-of-Fact Romance. By Charles Reade, author of "Love me Little, Love me Long," &c. 8vo, cloth, $1; paper, 75 cents.

A really great work, whether it be regarded from its fictional or from its matter-of-fact aspect, for it is twofold in its nature. To the thoughtless it is a beautiful romance, to the thoughtful a stupendous reality; and one scarcely knows which to admire most—the genius which has invented, embodied and colored the unrealities, or the industry which has collected, arranged and elucidated the facts.—*Illustrated London News.*

A work of extraordinary power.—*London Daily News.*

Contains that which is absolutely grand.—*London Athenæum.*

The critic draws out pearl after pearl; gems of description, &c.—*London Spectator.*

CAXTONIANA: A Series of Essays on Life, Literature, and Manners. By Sir E. Bulwer Lytton, Bart., Author of "The Caxtons," "A Strange Story," "My Novel," &c. Second Edition. 12 mo, Cloth, $1 50; Half Morocco Extra, $3.

The essays will be found stamped with the author's peculiar genius, and inferior to none of his compositions in those especial qualities in which he stands at the head of all the writers of his class. Thoughtful and full of matter, they are equal to anything he has before put forth in knowledge of men and books, acute analysis of motives, and critical elegance of taste. The style is carried to the utmost finish of which Sir Edward's fastidious sense is capable. * * * There is all the old romance of feeling, the lyrical flow of sentences, the well-bred irony, the liveliness, the wit. But beyond these there is the sobered judgment, the matured experience, the urbane and genial estimate of other men, which bespeak a mind arrived at its highest point of culture and its widest grasp of charity.—*Saturday Review.*

JOHN MARCHMONT'S LEGACY. A Novel. By Miss Braddon, Author of "Aurora Floyd," "Eleanor's Victory," &c. 8vo, Paper, 50 cents.

Miss Braddon writes frankly for amusement, and in each succeeding novel she rises above herself. "Lady Audley's Secret" was good; "Aurora Floyd" better; "Eleanor's Victory" still better; and now "John Marchmont's Legacy" may be pronounced the best of them all.—*London Times.*

AN INTRODUCTION TO MUNICIPAL LAW.
Designed for General Readers, and for Students in Colleges and Higher Schools.
By
Jo[illegible] Norton Pomeroy.
1 vol., 8vo., [illegible] 544 pages, cloth, $3.

From Amos Dean, [illegible] Albany Law School.

I have spent nearly four [illegible] in reading your book, and am willing to say, in reference to it, that, when considered in reference to its scope and the design had in view in entering upon it, it is a work of great merit. The topics are presented clearly, discussed with ability, and in the main, satisfactory results arrived at. Parts I. and II., I think, may prove very useful to students at law and young lawyers, as there is a great deal in the history of the law, and especially in its sources, both common and civil, that is very clearly, briefly and logically stated, and more available in the manner presented in your work than in any other that I am acquainted with.

From J. H. McIlvaine, D. D., Professor of Political Science in Princeton College, New-Jersey.

I have examined the advance sheets of your work on Municipal Law, and I am happy to say that I regard it as one of great value, not only for the general reader, to whom it will be very interesting and profitable, but also for those who make the law their chosen profession. The chief importance of the work, however, will be found, I think, in its use as a text-book for the higher classes in our colleges; and as such, it is my purpose to introduce it in my department of Political Science in the College of New-Jersey. I may add that it contains a vast amount of information upon the matters of which it treats, which no educated man can afford to dispense with. Having been acquainted with your labors from the beginning, I rejoice that you have brought them to so happy a conclusion.

From the Hon. Wm. B. Wright, one of the Judges of the Court of Appeals of the State of New-York.

The education of an American citizen is incomplete, that does not include in it some knowledge of the science of the law; and any course of instruction that passes it by as something foreign to the purposes of a liberal education, is essentially defective.

I have been struck with the precision and accuracy, and, in view of the magnitude of the subject, the completeness, of the book.

JUST PUBLISHED:
A BOOK OF NOVEL CHARACTER
and of intense interest to the religious world—a metrical translation of, and a most elaborate and impressive commentary on
THE BOOK OF JOB;
OTHERWISE ENTITLED
A SONG IN THE NIGHT.
BY REV. HENRY W. ADAMS, M. A.,
Of the Diocese of Massachusetts.

Genuine inspiration and the highest elements of sacred poetry are found in this obscure book. It required profound learning and a clear spiritual insight to open the book to the common mind. Happily this is accomplished in this rythmical rendering of the Hebrew poet, and by one called to minister at the altar. Leaving the outer courts of the temple, this man—a poet of rare beauty and power—boldly but reverently walks into the Santum Sanctorum. He fearlessly follows the divine footprints, and whatever he touches appears to ignite and burn with an all-illuminating flame.

A PROFOUND IMPRESSION
must be created by this book. Even the irreligious reader must appreciate its dramatic features and effects, and find in its thrilling story, heroic measure and perfect rhyme, a rare intellectual entertainment. The student of divinity will now discover its deep significance, while the weak and the afflicted will derive new strength and inexpressible consolation from the sweet repose and solemn trust so sublimely illustrated.

The book is a large and elegant octavo, gilt edges, and embellished with a fine portrait of the author on steel, and numerous tinted illustrative designs on wood. A copy should be in every family. Price $3 50, with usual discount to the trade. Published by
OAKLEY & MASON, Publishers and Booksellers,
No. 21 Murray-st., New-York.

EXCELLENT NOVELS ARE RARE NOW-A-DAYS.

TWICE LOST
is a very remarkable novel, and one that will make a sensation.

"The story is ingenious, and fastens the reader's attention at the outset, while the characters are so keenly and vividly represented that they almost take rank in the memory with persons we have actually seen and known."

THE FIFTH THOUSAND
is now ready.

"Altogether, for spiciness, for raciness, for cultivation, for a spirited plot, and rapid, skillful development, this book has not its equal this season."

We heartily suggest it as a wide-awake companion, and a capital novel for "reading aloud."

Large type, handsome paper; price, 50 cents.

American News Company, Dick & Fitzgerald, O. S. Felt, Oakley & Mason, John Bradburn, and all the Broadway booksellers have it.

CHICAGO AND GREAT EASTERN RAILWAY COMPANY,
FIRST MORTGAGE BONDS,
FOR $2,000,000.
SUBSCRIPTION BOOKS OPENED WITH
Messrs. SCHUCHARDT & GEBHARD, Bankers,
No. 21 Nassau-st., New-York.

The Chicago and Great Eastern Railway Company now offer for sale one million one hundred thousand dollars of their first mortgage bonds, in sums of one thousand dollars each, maturing in thirty years, bearing interest at the rate of Seven per cent. per annum, payable in the City of New-York, on the first days of April and October, in each year.

These bonds are secured by a first and only Mortgage on the property, income and franchises of the Railway Company, executed to Frederick Schuchardt and Henry Morgan, of the City of New-York, Trustees.

The remaining nine hundred thousand dollars of the Bonds are set apart and remain in the hands of the said Trustees, for the purpose of being exchanged for the indebtedness of the Chicago and Cincinnati Railroad Company, running from La Crosse to Logansport; this effected, the $2,000,000 will form a First and only Mortgage on a line of road 110 miles in length, extending from Chicago to Logansport, where it connects with the Cincinnati and Chicago Air-line Railroad, forming the shortest line by 40 miles, between Chicago and Cincinnati, and by 36 miles the shortest line between Louisville and Chicago.

It will also open, in connection with roads now in operation, entirely new and very direct lines from Chicago to New-York, Philadelphia, Baltimore, and all Eastern cities. The distance between Chicago and New-York by this route being shorter than by either of the existing lines via Dunkirk or Buffalo.

The road is now under contract, and the most strenuous efforts are being made to have it open for traffic during the Summer of 1864.

The interest on the Bonds maturing during the progress of the work has been provided for, and will remain on deposit with the Bankers of the Company, Messrs SCHUCHARDT & GEBHARD, No. 21 Nassau-st., to whom the Company refer for further particulars, and where subscription books for this loan have been opened.

PRIVATE DISEASES CURED IN THE shortest possible time, by DR. WARD & CO., No. 50 Lispenard-st., near Broadway, without the use of Mercury, loss of time or change of diet. DR. WARD, from the hospitals of London, Paris, and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and at less expense than any other can or will, and those who have been robbed of their money and health call: it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks, permanently and speedily cured by a new treatment. No lady need call upon the numerous doctors with whom to uselessly spend her means, as "The Married Womans' Private Medical Companion," price $1, by A. M. Mauriceau, Professor of Diseases of Women, designed especially for the married or those about to be married, points out the mode of treatment to remove obstructions, irregularities, or her other ailments, as mother or wife, with the causes and symptoms, and what best to do. WHAT THE RURAL NEW-YORKER SAYS OF
FLOWERS FOR THE PARLOR AND GARDEN.
BY EDW. SPRAGUE RAND.
BOSTON:
J. E. TILTON & CO.
"This is an admirable work. Just such a work was needed—is needed by every one, almost, who delights in window gardening. And a great many persons would take delight in it who do not, did they know how to take care of plants which they admire in other people's parlors. And they will learn, if they can purchase at a reasonable price, specific directions. From what we have seen of it, we think we can safely say that this work is the SPECIFIC they need. The mechanical execution of the book is very fine indeed; paper excellent, engravings ditto; letter-press clean and in excellent taste. But the chief recommendation is that the matter is practical, detailed, specific, so as to meet the wants of all who love flowers and would cultivate them in windows or gardens. We are aware that this is high praise; but this work approaches more nearly what we have long been aware was needed, than any we have seen. We are delighted with it."
Price, Extra Muslin, $2 50.
Also, in Half Calf and Turkey Bindings.
Sold at all the principal book and seed stores.

FAIRS.

TO THE WHOLESALE DRY GOODS MERCHANTS OF NEW-YORK.
METROPOLITAN FAIR.
NEW-YORK, Feb. 10, 1864.
The undersigned have been appointed a committee to represent the Wholesale Dry Goods Merchants in the Metropolitan Fair, to commence in this City on the 28th of March next. It will be held under the management of the Ladies of the City, who will be aided by an Advisory Committee of Gentlemen. Its object is to supply funds to the United States Sanitary Commission.

The services of this commission have been recognized throughout the entire army as in the highest degree beneficial. Every battle-field has been the witness of their noble, merciful and successful labors—imparting to the sick and wounded help, comfort and hope; and to those in arms, confidence and courage. All who are enabled to pursue their avocations in ease and safety at home cannot do less than provide for the sufferings of the brave soldiers who expose themselves to sickness, wounds and death, to maintain the unity and promote the welfare of their country.

Contributions for this purpose are requested in money or merchandise. If in money, it may be sent to either of the committee; if in merchandise, to the Receiving Depot, No. 2 Great Jones-st.

The magnitude of the wholesale dry goods interest—comprising the domestic and foreign commission houses, importers and jobbers—calls for a corresponding contribution to this object of benevolence and duty, such as will not only compare favorably with the results of fairs held successfully in other places, and with the contributions of other interests in the City, but also be esteemed worthy of the liberality and patriotism of the commercial Metropolis of the country.

METROPOLITAN FAIR FOR THE UNITED STATES SANITARY COMMISSION.—COMMITTEE ON WHOLESALE GROCERIES.—The members of the above committee have to announce to the importers of all descriptions of groceries, to the wholesale trade, and to all merchants connected with the receiving and selling of all merchandise coming under the classification of groceries, that they have completed all preliminary arrangements, and that the attestment of names for each member to call upon has been made.

It is confidently anticipated that the contributions through this committee, representing so large and wealthy a class of our citizens, will equal those made through any committee of the Metropolitan Fair.

The members of the committee will wait upon the merchants for their contributions within a few days, and the labors of the members will be greatly facilitated if gentlemen will take the subject into consideration at once, and be prepared to respond at the time of the call being made.

WASHINGTON, Thursday, March 3.

COL. STREIGHT'S ACCOUNT OF HIS CAPTIVITY.

Col. STREIGHT has addressed the following interesting account of his captivity and the treatment of our prisoners at Richmond to the House Military Committee:

"Agreeable to your request, I have the honor to report the following facts in relation to the treatment of our officers and men by the rebel authorities: It is impossible for me to give you an account of all the acts of barbarity, inhumanity and bad faith I have witnessed during my captivity, but I will endeavor to mention such instances as will give you as correct an idea of the true condition of our men as possible. On the third day of May last, near Rome, Georgia, my command having become so reduced by hard fighting and marching during the seven days previous that it was evident to me that we, about fifteen hundred officers and men, would fall into the hands of the enemy, and after holding a council of war with my regimental Commanders, it was decided to capitulate, and thus secure the best terms possible for the command as a condition of surrender. In accordance with this decision I met the rebel Commander, Gen. FORREST, under a flag-of-truce, where a stipulation was entered into between him and myself, whereby it was agreed that my command should surrender as prisoners of war on the following conditions, to wit: *First*—Each regiment should be permitted to retain their colors. *Second*—The officers were to retain their side arms. *Third*—Both officers and men were to retain their haversacks, knapsacks and blankets, and all private property of every description was to be respected and retained by the owner. The above terms were in a measure respected while we remained with Gen. FORREST; but no sooner were we turned over to the rebel authorities than a system of robbery commenced which soon relieved us of everything valuable in our possession. The blankets, haversacks and knapsacks were taken from my men at Atlanta. They were also robbed of nearly all their money, and most of them lost their overcoats at the above-named place. Here, too, the colors and side arms were taken from us. My men were turned into an inclosure without shelter of any kind, destitute of blankets and overcoats, as I have before stated, and kept under guard for four days, during which time a most disagreeable cold storm prevailed, after which they were sent forward to Richmond and soon exchanged. My officers were sent to Richmond after a stay of about ten days in Atlanta. On our arrival at the rebel capital, we were all searched separately, and all moneys found in our possession were taken from us. For a few days thereafter we were allowed to draw small sums of our money for the purpose of purchasing food. But this privilege was soon denied us. I then asked and obtained permission from the rebel authorities for the officers to send home for money, clothing and provisions. The clothing and provisions were generally delivered to the parties ordering them, provided the package or box containing them was not broken open and rifled of its contents before it reached its destination, which was frequently the case. But in no case within my knowledge has the money been delivered to the owner. The detention of this money, after expressly agreeing to deliver it, is an act of perfidy that beggars description. I have repeatedly called the attention of the rebel authorities to the terms of my surrender, and demanded that its provisions be complied with. But Gen. WINDER, Commandant of the prisoners, took from me the stipulations signed by Gen. FORREST, which he still retains and refuses to be covered by its provisions.

My officers, together with something near 1,000 other United States officers, are confined in a large warehouse building, with an average space of about twenty-five square feet to each man. This includes all room for washing, cooking, eating, sleeping and exercising. They have no bunks, chairs or seats of any kind furnished them, consequently they both sit and sleep on the floor. The windows of the building were entirely open until about the middle of December last, when pieces of canvas were furnished for the purpose of closing them to keep the cold out, but as this would leave us in the dark, we were compelled to leave a portion of them open and endure the cold. Many of the officers were entirely destitute of blankets until our Government sent a supply to us in the forepart of the Winter. The supply of blankets is now exhausted, and officers who have been captured during the last six weeks have none furnished them. The rations furnished both officers and men by the rebels consists of about one pound of corn-bread, made from unbolted meal, and one fourth of a pound of poor fresh meat per day. The meat has been issued to the prisoners but about half of the time since the 1st of December last. In addition to the rations of bread and meat, as above stated, the prisoners draw about two quarts of rice to one hundred men. There is a sufficient quantity of salt furnished, and a very small quantity of vinegar. I will here remark that in a few instances, say six or eight times at most, a small quantity of sweet potatoes has been issued instead of the rations of meat. The above is the sum total of the rations issued to our officers and men now prisoners of war. The condition of our unfortunate enlisted men now in the hands of the enemy is much worse than that of the officers. From early in May last, when I arrived at Richmond, to about the 1st of December, all the enlisted men were taken to what is called Belle Isle, and turned into an inclosure like so many cattle into a slaughter pen. Very few of them had tents or shelter of any kind, and the few tents furnished were so poor and leaky as to render them but little better than none. All the prisoners are taken to the Libby when they first arrive in Richmond, for the purpose of counting them and enrolling their names, consequently I had a fair chance to see their condition when they arrived. Fully one-half of the prisoners taken since May last were robbed by their captors of their shoes, and nearly all were robbed of their overcoats, blankets and haversacks. At least one-third of them had been compelled to trade their pants and blouses for mere rags that would scarcely hide their nakedness; very many of them were entirely bareheaded, and not a few, as late as the middle of December, were brought in who had nothing on but an old pair of ragged pants and a shirt, being bareheaded, barefooted, and without a blouse, overcoat or blanket. I have seen hundreds of our men taken to the hospital thus clad, and in a dying condition. I have frequently visited the hospital, and have conversed with large numbers of dying men brought there from the island who assured me that they had been compelled to lie out in the open air without any medical attendance, though for several days they had been unable to walk. Though destitute of anything like quarters, and nearly naked during the cold, stormy and chilly Fall season, the first and chief complaint of all those I saw and talked with was on account of an insufficient quantity of food. I will here remark that in no instance have the rebel authorities furnished clothing or blankets to our men. During the Winter large numbers of our men were frozen. I heard one of the rebel surgeons in charge say that there were over twenty of our men who would have to suffer amputation from the effects of frost. This was before the coldest weather commenced, some time in the fore part of December, a portion of our men were removed from the island to some large buildings, where they were more comfortably quartered, but there has been no time since May last but what more or less of our men have been kept on the in the open air, and without blankets or overcoats. It is a common thing for the rebels to keep our men for several days entirely without food. This was particularly the case with a portion of the Gettysburgh prisoners. Some went as long as six days without food, and were compelled to march during the time. The officers captured at Chickamauga assure me that they and their men were robbed of everything. Many of them lost their coats, hats and boots, as soon as captured, and then were nearly starved and frozen. I trust you will pardon me for the tedious length of this communication. If you will bear with me I will only call your attention to a few of the outrages practiced on our officers and men in the prison discipline. Under the building known as Libby prison is a large cellar, in which they have several cells partitioned off. Several of them are without any light, but some of them have windows below the pavement. These cells are used for the purpose of confining securely such of the prisoners as the authorities may fear will attempt to escape, as well as such as may chance to offend some one of the many petty officials and prison attaches. Some of our unfortunate men are continually confined in these filthy holes, on one pretext or another. It is the uniform practice to feed any and all persons sent to these cells on bread and water only. Lieut. REED, of the Third Ohio Volunteers, was thrown into one of these cells, and kept there for forty-eight hours, without anything to eat or drink during the time. He was not allowed any blankets nor his overcoat. The weather was very damp and cold, and he at the time was suffering from a most severe wound in the hip. On the night of the 19th of December, I received a communication purporting to come from one in authority, stating that for $100 in greenbacks and two silver watches, myself and friend would be permitted to pass the guard. Some days previous to this one of my officers succeeded in making his escape in this way; and although I was not without apprehensions that it was a trap, nevertheless I resolved to try the experiment. Accordingly, Capt. B. C. G. REED, Third Ohio Volunteers, and myself, went to the designated place at the appointed hour, where we were assured that it was all right. We complied with the terms and passed out; but no sooner were we outside the guard lines than Major LATROUCHE, the Adjutant of the prison, and seven men sprang out from a concealed place and commenced firing upon us before "halting" us. We were unarmed and could do nothing but surrender. We were taken back to the prison, put in irons, and thrown into one of those filthy holes called cells, where we were kept for three weeks on bread and water. The weather was very cold during the time, and we nearly perished. There was a large amount of filth in the cell which I could not induce them to remove, nor could I get them to permit me to remove it. I asked for paper, pen and ink to write the rebel authorities; I also asked for a box to sit on, of which there was a large number in the cellar, but everything was denied me. At the time I was taken to the cell there were six of our men confined in one of these cells for attempting to escape. They had been there for six days without blankets, and two of them were very sick. They were released at the end of seven days of their confinement. I might continue to enumerate instances of a similar character, but these will answer to give you an idea of what is daily taking place. I cannot describe to you the loathsome filthiness of these cells. They are infested with a great number of rats and mice, and they have no marks of having been cleansed since they were first built. It is needless for me to say that no man can survive a long confinement in a place of this kind, and although I am acquainted with several persons who have been confined there, I do not know one who can be called a well man.

As I have before remarked, it is impossible for me to enumerate in this communication but a few of the many acts of barbarity which have come under my notice, though I have endeavored to give you a sample of such as will enable you to form a correct conclusion relative to the treatment our unfortunate men are receiving at the hands of the inhuman people with whom we are at war. They seem lost to every principle of humanity, and it is my candid conviction that their brutality to our prisoners is only measured by their fears.

I have the honor to be, most respectfully,
Your obedient servant, A. D. STREIGHT,
Colonel Fifty-first Indiana Volunteers.

THE PRISONERS EXCHANGED.

The arrangement with Gen. BUTLER for the exchange of prisoners includes those delivered at Enterprise, Miss., up to the 24th of January, which swells the number to three or four thousand. BUTLER'S action is not yet sanctioned by the Secretary of War.

GEN. MEADE'S CONDUCT AT GETTYSBURGH.

The Committee on the Conduct of the War has been for several days past investigating the conduct of Gen. MEADE at the battle of Gettysburgh. Gens. SICKLES and DOUBLEDAY have testified that after the first day's fighting, Gen. MEADE wrote an order to fall back 17 miles, and but for chance, a retreat would have been ordered.

THE GOLD BILL.

The first thing in order to-morrow morning in the House will be the Gold Bill, which was advocated to-day in an able speech by Mr. STEBBINS. The impression is that the bill will pass the House. Secretary CHASE is exceedingly anxious that the bill reported by the Committee should pass.

DISPATCHES TO THE ASSOCIATED PRESS.

WASHINGTON, Thursday, March 3.

NAVAL CHANGES.

Lieut.-Commander JOSEPH H. STERRETTS has been detached from the *Katadhin*, and ordered to New-Orleans to the command of the *Aroostook*.

Lieut.-Commander CHESTER HATFIELD has been detached from the *Aroostook*, and ordered to return North.

Lieut. C. M. SCHOONMAKER has been detached from the West Gulf Blockading Squadron, and ordered to return North.

THE WHISKY BILL.

The Whisky Bill, the House having voted to adhere to its disagreement to the Senate's amendments, now stands thus, namely:

If the Senate shall also adhere to its own amendments, the bill is lost; but if the Senate insists on its amendments, it can ask the House for another Committee of Conference, and the House will be left to exercise its own pleasure in granting it. In other words, though the action of the House to-day was adverse to the bill, it is not as yet finally decided, but depends for its vitality on the contingencies above stated.

FATAL RAILROAD ACCIDENT.

R. A. FLOOD, President of the Manufacturers' Bank at Troy, N. Y., was run over at the Alexandria depot last night, about 12 o'clock, by an engine, and both of his legs severed from his body. He had the best of medical attendance but died in the course of two hours. The Sanitary Commission have charge of his remains, and will send them to his friends. He had been to the front to pay the bounties of the veterans from Rensselaer County, N. Y.

PROCEEDINGS OF CONGRESS.

SENATE.

WASHINGTON, Wednesday, March 3.

SOUTH AMERICAN STEAMSHIP COMPANY.

Mr. SPRAGUE, of Rhode Island, (Union,) presented a memorial of merchants and others from Rhode Island, in behalf of the South American Steamship Company. Referred to the Committee on Commerce.

EXTENDING THE BOUNTIES.

Mr. DOOLITTLE, of Wisconsin, (Union,) presented joint resolutions of the Wisconsin Legislature, in favor of extending bounties to April 1.

THE INDIANS IN KANSAS.

Mr. LANE, of Kansas, (Union,) presented a joint resolution of the Legislature of the State of Kansas, asking for the removal of the Indians from that State to the Indian Territory. The preamble accompanying the resolution, sets forth the fact that it costs $60,000 a month to feed them.

RELIEF OF A FRENCH SHIP.

Mr. SUMNER, of Massachusetts, (Union,) called up the bill for the relief of the French ship *La Maincre*, which was passed. The bill appropriates over 135,000 francs.

THE BOUNTY QUESTION.

Mr. WILSON, of Massachusetts, (Union,) from the Committee on Military Affairs, reported back the House bill (41,) to provide for the payment of bounties to volunteers to April 1, 1864.

Mr. WILSON stated that this bill had been recommitted for the purpose of ascertaining the views of the War Department on the subject, and he would present a letter from the Secretary of War, recommending its immediate passage.

The bill was passed.

MR. DAVIS' NOTIONS.

Mr. DAVIS, of Kentucky, (Dem.,) offered the following amendment to the joint resolution, amendatory of the Constitution of the United States:

First—No negro or person whose mother or grandmother was a negro, shall be a citizen of the United States, or be eligible to any civil or military office, or to any place of trust or profit under the United States.

Second—That the States of Maine and Massachusetts shall constitute one State of the United States, to be called East New-England, and New-Hampshire, Vermont, Rhode Island and Connecticut shall constitute one State, to be called West New-England.

Ordered to lie on the table, and be printed.

INTERFERENCE IN ELECTIONS.

Mr. POWELL, of Kentucky, (Dem.,) called up the special order, the bill to prevent officers of the army and navy, and other persons engaged in the military service of the United States, from interfering in elections in the States, reported by Mr. HOWARD, from the Military Committee, adversely.

Mr. POWELL addressed the Senate at great length, reviewing the report in detail, and defending the Democratic members of the Legislature of Kentucky, who signed the address petitioning for the passage of such a bill, from the charges of disloyalty made against them in the report. Mr. POWELL said the English statute, from which he quoted voluminously, provided that soldiers should not be stationed within one mile of the polls on the day of election. We were the only people who would allow military interference in the elections, and it was only recently that it had been allowed. It could not be doubted that upon the purity and inviolability of the elective franchise depended the safety and perpetuity of the Union. Seven States of the Union had statutes preventing the appearance of soldiers at the polls as such. He quoted largely from the statutes of Maryland as an instance of the laws of other States on the subject, and contended that the General Government had overthrown the laws regulating local elections in the loyal States. He condemned the orders issued by military commanders in Kentucky, and especially those of Gen. BURNSIDE and his subordinates. He held the President of the United States responsible for all these infringements upon, and overthrow of local law in loyal States. He charged that some of the members of the Military Committee had not seen the report of Mr. HOWARD, and he thanked God they had not.

Without concluding his remarks, Mr. POWELL gave way on a motion to adjourn, and at 4 o'clock the Senate adjourned.

HOUSE OF REPRESENTATIVES.

WASHINGTON, Thursday, March 3.

JURISDICTION OF THE COURT OF CLAIMS.

The House by eight majority recommitted to the Committee on the Judiciary the bill declaring the jurisdiction of the Court of Claims growing out of the military and naval operations during the present rebellion; also providing for the settlement of claims for Quartermasters' and Commissary supplies by the proper bureaus; and making provision for Boards of Commissioners to ascertain other claims with a view to their future settlement.

CLAIMS FOR SUPPLIES TAKEN BY THE ARMY.

Another bill reported from the Committee on the Judiciary was taken up, providing for the settlement of the claims for Quartermaster and Commissary supplies, on the presentation of satisfactory proofs.

This bill, after debate, was also recommitted.

GEN. GRANT'S REPORT.

Mr. WILSON, of Iowa, (Union,) offered a resolution providing for 10,000 additional copies of Gen. GRANT'S Military Report, which was referred to the Committee on Printing.

THE AGRICULTURAL REPORT.

Mr. AMBROSE W. CLARK, of New-York, (Union,) from the Committee on Printing, reported in favor of printing sixty thousand copies of the Agricultural Report for 1863.

Debate ensued, during which Mr. GRINNELL, of Iowa, (Union,) spoke about the propriety of disseminating the report at the public expense, leaving to gentlemen the circulation of the documents of military candidates at their private cost.

Mr. MALLORY, of Kentucky, (Dem.,) asked what the gentleman meant by military candidates.

Mr. GRINNELL—I mean military candidates for the Presidency.

Mr. MALLORY—Does the gentleman mean Gen. GRANT?

Mr. GRINNELL—Gen. GRANT is a candidate for putting down the rebellion. Your candidate has been dead some months.

Mr. MALLORY—Who is that?

Mr. GRINNELL—I mean Gen. MCCLELLAN.

Mr. MALLORY—Oh! you mistake. MCCLELLAN is a "live" man.

Mr. STROUSE, of Pennsylvania, (Dem.,) agreed with Mr. STEELE, of New-York, that of all the printed documents none were more valuable than the Agricultural Report. It was poor economy to begin with printing, when the trial trip of a steamboat would cost three times as much as the number of copies proposed. Why not economize in the expenditure of the millions upon millions so lavishly appropriated?

The resolution for printing 60,000 copies of the Agricultural Report was ordered to be printed.

THE SURPLUS GOLD QUESTION.

The Speaker announced the next business before the House to be the adverse report of the Committee of Ways and Means on the bill authorizing the Secretary of the Treasury to sell the surplus gold beyond the public wants and the demands of law.

Mr. STEBBINS, of New-York, (Dem.,) said that in the remarks which he heretofore made, he regarded the question in no other point of view than of interest to the Government. He had felt constrained to express his hostility to a paper-money system, but as wars have always been carried on under such a system, judgment and experience show that our country cannot be an exception to the rule. We are in the midst of war, and the national credit must be sustained in all its integrity. The present financial system is the offspring of the necessity which has grown up by the operations of a three years' war. It is interwoven with our system, and we ought not now to dispense with it if we could. To undermine and destroy it was to assist in bringing the nation to ruin. He was in favor of instructing the Secretary of the Treasury to sell all the surplus gold beyond the wants of the department. He desired him to be so instructed, and reflection had confirmed him in the correctness of his judgment. In the former debate on this subject statements were made calculated to swell the current of embarrassment and speculation, set a higher price on the precious metals just in that proportion to the burdens of the people, by the predictions of national bankruptcy and repudiation. In his judgment such statements could not be made without damage, both to public and private interests, and to our army in the field, who look on Congress to strengthen the public credit, in order that they may receive supplies of men and money until the war shall be successfully terminated. He protested against the predictions as to financial embarrassments and bankruptcy, and argued that there was nothing in the condition of our debt to justify a difference of 33 1-3 per cent. as between gold and paper. The plans of the Secretary commended themselves to his judgment, and should be acceptable to all Democrats and others, for they were demanded by the necessities of the war. The Secretary sought to establish a more solid system of finance, and, while the Secretary strove to carry out his plans, he (STEBBINS) would support them, because in so doing he supported commerce and checked the undue depreciation of paper, and to that extent diminished the public expenditures. He proceeded to show the unsoundness of the declaration that the country is on the verge of ruin. He would urge the Secretary of the Treasury to act promptly on the principles of his report, and sell from day to day the bonds of the Government, or other evidences of public debt, to any extent which may be necessary; and he appealed to the House to facilitate the operations of the Secretary in the most effective manner. In the course of his remarks Mr. STEBBINS referred to Indiana and Illinois as illustrations of wonderful recuperative power within State limits, which had recovered from former financial disasters, and now enjoyed a high state of prosperity. If this was so of a small community, it would be so of a great one—of the United States—and they will pay every dollar borrowed and expended to perpetuate the strength of the Government in all its graceful outlines. He also referred to the former depression of railroad stocks and bonds, and of their recovery from that condition. What was the difference, he asked, between the funded debt of a small community and a large one in principle? The only thing the country had to fear was the depreciation of the $400,000,000 of legal tender notes, which speculators sought to place at 33⅓ per cent. discount. To disarm and discredit the speculators we should familiarize the people with the wealth and faith of the nation. Take the example of New-York, where the market is influenced by false reports. Speculation is carried on under the influence of frenzied declarations. Rumors are sent thither from this city and other points to influence the gamblers' speculations. Electricity plays an important part in the affairs of men. It so concentrates and so intensifies the incidents of human life that those who would judge the present by the past, cannot draw just conclusions. They must look to the time when men will see with a clearer vision, and overwhelm the speculators and alarmists with shame and mortification. Every man, he contended, was guilty of a crime who sought to diminish the value of the United States currency, for, while capitalists thus prosper, the masses suffer. We must relieve the Government from being a hoarder of gold. It cannot be a party to such retention of coin without participating in its own ruin. We should allay all fears as to the legal tenders; there are only four hundred millions of them, and not one thousand millions, as has so often been stated. The representatives of the people should exhibit constantly the absolute resources and power of the nation to meet all the emergencies of this war. No parallel can be drawn between this and other nations. France had issued nine thousand millions, while we have issued only four hundred millions in the same length of time.

Mr. STEBBINS offered the following for the pending resolution:

Resolved, That the Secretary of the Treasury be and he is hereby authorized (first reserving in the Treasury an amount sufficient to meet the payments in gold required by law) to sell, from time to time, at public auction, after having given five days' notice in the daily papers of New-York, any portion of the surplus of gold in the Treasury of the United States; *Provided*, that the Secretary of the Treasury may, instead of such sale, apply the gold in the Treasury to the redemption, in advance, of the interest coupons of the United States which by law are required to be paid in gold whenever the amount on hand shall be sufficient to discharge the entire amount maturing, and on the same day.

Mr. FENTON, of New-York, (Union,) offered the following as a substitute:

"That the Secretary of the Treasury be and he hereby is authorized to sell gold or other coin received in payment for United States bonds negotiated, and also to sell any foreign exchange that may be received by the agents or officers of the Treasury of the United States; provided, that nothing herein contained shall be construed to authorize the sale of any gold or other coin now on hand, or that may be received hereinafter in payment of Custom-house duties.

SEC. 2. That the Secretary of the Treasury be and he hereby is authorized to anticipate the payment of interest upon the public debt, from time to time, either with or without a rebate of interest upon the coupons, as he may deem expedient."

Mr. FENTON spoke on the finances of the country, and repelled the arguments of his colleagues (FERNANDO WOOD and BROOKS.) He said the Secretary of the Treasury, amidst the greatest difficulties, had managed our fiscal affairs with unrivaled ability and success. Public confidence had been inspired, and our credit had been secured during a period of civil commotion, peril and expenditure hitherto unknown. He said the financial strength of the United States could not be judged correctly by those prevailing in Europe; first, because its basis is largely in the property of the country; in lands and agricultural products, whose value is not adequately represented in money; second, because of the labor of men employed in agriculture and arts produce more here than in Europe. The industrious poor and middle classes of Europe are coming to our shores in the midst of civil war in numbers that find no parallel in the history of the nation. If we merely estimate the amount of property that is brought over to our country by this tide of immigration, we find it reaches hundreds of thousands annually. But if to this we add the influx of labor at the constantly increasing ratio of value, we see an ever-expanding basis of public credit altogether incapable of estimation. The man who speaks of impending failure in our financial affairs is either ignorant of the facts or mischievously designs to awaken distrust and weaken the public credit. I hope that a certain class of men, disappointed and exasperated at the success of the Union and the progress of liberty, will not evince a malignant opposition by detraction of our public men and an attempt to deprecate our true financial strength and success. In conclusion, he said, with the Union maintained, the people united and firmly intrenched in the highest and most perfect liberty compatible with free government, and the return to the whole people of those industries which enrich and elevate the masses of mankind, we shall rise from the burthen of debt, and from our vast resources attain the most ample wealth and independence known to any nation.

Mr. HOLMAN, of Indiana, (Democrat,) moved, as a test vote, that the whole subject be laid on the table.

This was disagreed to—54 against 73.

THE WHISKY TAX.

Before taking further action on the above subject, Mr. MORRILL, of Vermont, (Union,) made a report from the Committee of Conference on the Whisky Bill, saying, that after a full and free conference, they had been unable to agree. He remarked it was necessary for the House to recede from its disagreement to the Senate's amendments, or lose the bill. The Senate Committee were willing to dispose of the bill in any manner, excepting they would not consent to tax spirits on hand. That question out of the way, there would be no disagreement. He moved the House recede from its disagreement to the Senate's amendments.

Mr. KASSON, of Iowa, (Union,) of the Conference Committee, said it was the opinion of the House, as expressed, that the article of spirits was entitled to a greater degree of consideration than any other, for the purpose of equalization of taxes. If the House should recede from its amendment to tax spirits on hand for sale, the sliding scale of duties should be higher. He thought the House should adhere. He could not justify himself in abandoning, or exempting from taxation, an article which could bear additional taxation so easily. He read from the New-York *Herald* and *Tribune*, and other papers, including several in the West, in which they spoke of the House legislating for favored classes of whisky dealers, and commented on the former change of rates. These comments of the press, Mr. KASSON said, were for the purpose of convincing the people that improper influences had been resorted to, for the purpose of preventing spirits from being additionally taxed. He did not, however, indorse them.

Mr. SPAULDING, of Ohio, (Union,) of the Committee of Conference, thought a tax on spirits on hand manifestly just and proper. On reflection, he believed if the House was true to itself it would adhere.

Mr. SCHENCK, of Ohio, (Union,) intended to vote to recede, and made an explanation of the vote he would give. On a matter of principle he had sustained the Committee of Ways and Means. He would say that the gentleman from Iowa should be ashamed to read scurrilous newspaper articles reflecting on members. It was unworthy of him who brought such charges into the House. The newspapers in his (Mr. SCHENCK'S) district said he and others voted wrong. But he believed the newspapers to be wrong; he believed his constituents were misled; he trusted they would say so on a second sober thought. If not, he would vote his convictions, whether they pleased or not.

Mr. GARFIELD, of Ohio, (Union,) said he had voted to tax spirits on hand, and had said that no one article could bear a higher duty than spirits. The records of Great Britain showed that out of sixty-five millions sterling raised from all sources, thirty-five millions were raised from four articles, viz.: spirits, tobacco, tea and sugar in various forms. This day whisky in England paid $3 18 per gallon in our money. He still advocated a tax on spirits on hand. The question was whether they should kill the bill or insist upon their disagreement when the Senate stood two to one against them. He did not believe it was wise to destroy the bill because they could not get all they desired, and for that reason he was in favor of concurring in the Senate's amendments, and on that ground solely.

Mr. MORRILL, of Vermont, (Union,) said in the course of his experience as to all disagreements on questions of revenue, when it came to the final vote, the two Houses were disposed to treat all subjects fairly. Of all questions perhaps this had generated the most heat, and gentlemen seemed unwilling to listen to argument. He proceeded to show how much they had already lost in refusing to adopt the Senate Bill. He regarded the proposition to tax spirits on hand as certainly an experiment. It was better to follow the present course than to adopt new expedients. It would be utterly impracticable to enforce it. He concluded by an earnest appeal to the House to recede from their disagreements, and allow the bill to pass. While the Government is in want of money we ought not to stand higgling here, and meantime allow money to escape taxation.

The question was taken on receding, and decided in the negative; yeas, 61; nays, 71; as follows:

YEAS—Messrs. James C. Allen, Ancona, Bailey, Blair of Missouri, Bliss, Blow, F. Mr. GRINNELL, of Iowa, (Union,) moved that the House *insist* on its disagreement and ask for another Committee of Conference.

This was largely voted down.

Mr. STEVENS, of Pennsylvania, (Union,) moved that the House *adhere* to its disagreement, and this was agreed to.

At half-past four o'clock the House adjourned.

It has been from time immemorial the object of philanthropists to find some remedy for the ills of life, and scientific skill has for ages explored every avenue in order to discover the hidden secret. It has been, however, reserved for modern science to bring before the world the great destroyer of disease, and in HOOFLAND'S GERMAN BITTERS are concentrated all those virtues which tend to promote healthy and vigorous life. Unlike the generality of bitters, they are not an alcoholic mixture, but a pure tonic, composed entirely of vegetable substances. They are a positive cure for

Its virtues are known in every quarter of the inhabitable globe, and the wonderful cures which it is daily performing have won for it the highest post in the temple of science. With such recommendations, backed by incontestible and undoubted testimonials from those who have experienced its curative properties, giving to the public no assertion but what has passed through the crucible of truth, and supported by an array of splendid and hitherto unknown triumphs, what wonder is it that thousands rush to it for relief in the hour of danger.

NEW-YORK TESTIMONY.

From John B. Wickersham, Esq., firm of Wickersham & Hutchison, the celebrated manufacturers of fancy iron works, No. 259 Canal-st.:

* * * * * *

I am the recipient from you of one of the greatest favors that can be conferred upon man, viz: That of health. For many years have I suffered from one of the most annoying and debilitating complaints that the human family can be afflicted with, Chronic Diarrhœa.

During the long time I was suffering from this disease I was attended by regular physicians, giving me but temporary relief. The cause seemed to remain until I was induced to try Hoofland's German Bitters. After the use of a few bottles of that valuable medicine, the complaint appeared to be completely eradicated.

I often inwardly thank you for such a valuable specific, and, whenever I have an opportunity, cheerfully recommend it, with full confidence in its reliability.

Truly, yours, JOHN B. WICKERSHAM.
NEW-YORK, Feb. 2, 1864.

From Julius Lee, Esq., firm of Lee & Walker, the most extensive Music Publishers in the United States, No. 722 Chesnut-st., Philadelphia:

FEBRUARY 8, 1864.

MESSRS. JONES & EVANS—GENTLEMEN: My mother-in-law has been so greatly benefited by your Hoofland's German Bitters that I concluded to try it myself. I find it to be an invaluable tonic, and unhesitatingly recommend it to all who are suffering from dyspepsia. I have had that disease in its most obstinate form—flatulence—for many years, and your Bitters has given me ease when everything else has failed. Yours truly, JULIUS LEE.

From that well known citizen, the

HON. JACOB BROOM:

PHILADELPHIA, Oct. 7, 1863.

GENTLEMEN: In reply to your inquiry as to the effect produced by the use of "Hoofland's German Bitters" in my family, I have no hesitation whatever in saying that it has been highly beneficial. In one instance, a case of dyspepsia, of about thirteen years' standing, and which had become very distressing, the use of one bottle gave decided relief, the second effecting a cure, and the third, it seems, has confirmed the cure, for there has been no symptoms of its return for the last six years. In my individual use of it, I find it to be an unequaled tonic, and sincerely recommend its use to the sufferers.

Truly yours, JACOB BROOM, No. 1,707 Spruce-st.

The following well-known reverend gentlemen have acknowledged in writing the great benefits they have received from the use of these Bitters. Such testimony must certainly convince the most sceptical:
